This compendium of 35 case studies examines managerial and organizational behavior concepts put to practice in everyday, real-world healthcare settings. Through these cases, students will gain skills, confidence, and a clear understanding of the application of theory. This is one of the few collections that offers case studies specific to the theories of organizational behavior, within the healthcare setting. Case studies topics include chapters such as " I Don't Want to Get Fired, But...", "Readiness and Change Management During Electronic Medical Records Adoption", " Joint Patient Liaison Office: Building a Streamlined Unit", "The Tardy Drama Queen", "It's Just Not Fair!", "When Increased Diversity Improves Team Performance", "Whose Patient Is It?", " Managing Organizational Growth during a Time of Downsizing", "Working Toward Collaborative Care", " The Struggle for Power at Midwest Hospital System", "Conflict at the Academic Medical Center: Productivity Levels", " EMR System: A Blessing or A Curse?", "The New Manager's Challenge", and much more.

This casebook is designed to develop an understanding of, and appreciation for, the various challenges, dilemmas, and constraints that decision makers face in real organizational settings. The cases are made up of actual events and include globalization, managing a diverse workforce, and leadership.

This book presents 24 research-based cases that require users to apply relevant theoretical models to the analysis of real-life organizations and to specify solutions to practical managerial problems. Nine of the cases additionally provide role-playing exercises. The book is organized into five parts and the cases deal with issues at the interface of strategy, organizational behaviour and HRM. These include: Japanese manufacturing methods, TQM, JIT, high-performance-work teams, greenfield sites, culture and commitment, delayering, recruitment, selection, appraisal and development, managing growth and retrenchment. All the cases are united by the common theme of managing organizational change - in settings as diverse as car components and assembly companies, British Airways, Fulham Football Club, retail distribution and retailing, a partnership of professional surveyors, the NHS and British Rail.

New-gen organizations are different in their design, structure, culture and processes; new-gen employees are different in their attitudes, aspirations and behaviour—they need to be managed differently. With the development of new-gen organizations and the emergence of new-gen professionals, there is a need to document the behavioural issues and concerns of these workplaces. Cases in Organizational Behaviour presents 120 cases from the new-gen workplace that provide the readers insights into 'the good, the bad and the ugly' facets of the corporate lives of new-gen professionals. Based on real-life work experiences of corporate executives working with indigenous or multinational organizations operating in India, these cases address a variety of issues faced by professionals in new-gen organizations and their behavioural implications at the workplace. Key Features • 120 cases, classified under 10 major sub-themes of organizational behaviour (OB), covering as many as 18 professional sectors • Ideal for educating and training students aspiring to be part of new-gen organizations and employees already working with them • A general introduction along with abstracts and discussion questions for each case, to assist instructors and participants

People, processes, and technology. These are the three major drivers of business achievement. The best leaders inherently understand that great companies start with great people. This is as true now as it was during the beginning of the industrial revolution, and understanding and staying current on the latest organizational behavior research and best practices paves the way for managerial success. In this updated edition of Organizational Behavior, theory, new research and real-world case studies are combined in an engaging manner to blend together the critical concepts and skills needed to successfully manage others and build a strong organization across all levels of a company. Featuring an in-depth view of the process and practice of managing individuals, teams, and entire organizations, the text provides a solid foundation for students and future managers.

Many companies today are either undergoing drastic organizational changes or are faced with the prospect of having to make these changes in the near future. The need for change may arise from internal sourcesâ€”growth in the size of the company, the problem of agingâ€”or, more frequently, from external sources: changes in the nature of markets, in the technology of the industry, or even cultural beliefs about the â€œproperâ€• rewards of work and behavior for employers and employees. This book is concerned with the process of change by which organizations achieve their purposes and meet the needs of their individual and group contributors. Lawrence's study is centered on a medium-sized supermarket chain in which several important management functions were being shifted from the home office to newly created store managers. The origin and reasoning behind these organizational changes, the methods of introducing them, the process of shifting the roles of key individuals, and the consequences of the changes are considered in detail. The author's inquiry proceeds from four essential research questions: What is the nature of the basic behavior patterns in this organization? What are the key factors involved in changing those patters? Did significant measurement change occur? If so, how was it accomplished. This volume, first published in 1958, broke new ground in devising techniques to measure changes in behavior patterns of individuals, in focusing attention on the behavior patterns of individuals at the management levels of an organization, and in clarifying the stubborn facts of human behavior involved in changing administrative patterns. The book will be of continuing interest to managers and administrators concerned with making key changes in customary supervisory practices and to sociologists for the way the book addresses the general issue of the conflicts between the shifting demands of large organizations and the integrity of the individual. The new 1990 introduction by the author nicely illustrates his belief that the process of organizational change remains a central issue for American society.

Realistic, intermediate-length cases make up this inexpensive casebook. Based on real events but with all names changed, the cases either illustrate theory or describe a recent real-life dilemma requiring a decision. Cases are long enough to require significant analysis from the reader, but short enough that a wide variety of topics can be covered. Describes the full range of management, systems, group, interpersonal, and individual topics; also highlights international business, globalization, diversity, ethics, communications, and human resource decisions. References each case to several leading management and organizational behavior books. Offers a versatile range of material and organization, making book suitable for a variety of uses. An inexpensive, handy reference for trainers, organizational development consultants, and other Human Resources professionals.

The Second Edition of Case Studies in Organizational Communication: Ethical Perspectives and Practices, by Dr. Steve May, integrates ethical theory and practice to help strengthen readers' awareness, judgment, and action in organizations by exploring ethical dilemmas in a diverse range of well-known business cases.

Managers and supervisors will sharpen their analytical and decision-making skills with this new collection of fully reproducible case studies. Based on actual, real-life situations, these exercises prepare supervisors and team leaders for the challenging problems they face in today's complex workplace. Each case study includes: Summary of the case; Discussion questions which evoke thought and analysis; Suggested solutions to the problems presented. Training Objectives: Improve participant's listening skills; Empower employees to negotiate; solutions fairly; Provide opportunities for participants to practice new skills in a supportive environment; Illustrate the skills needed to respond productively to complex issues. Activities Cover: Performance appraisal; Managing effectively; Sexual harassment/discrimination; Managing disruptive employees; Coaching/counseling employees; Hiring the right person
