From the bestselling author of Women Talking, a "wrenchingly honest, darkly funny novel" (Entertainment Weekly). Elf and Yoli are sisters. While on the surface Elfrieda's life is enviable (she's a world-renowned pianist, glamorous, wealthy, and happily married) and Yolandi's a mess (she's divorced and broke, with two teenagers growing up too quickly), they are fiercely close-raised in a Mennonite household and sharing the hardship of Elf's desire to end her life. After Elf's latest attempt, Yoli must quickly determine how to keep her family from falling apart while facing a profound question: what do you do for a loved one who truly wants to die? All My Puny Sorrows is a deeply personal story that is as much comedy as it is tragedy, a goodbye grin from the friend who taught you how to live.

Editing is a tricky business. It requires analytical flair and creative panache, the patience of a saint and the vision of a writer. Transforming a manuscript into a book that edifies, inspires, and sells? That's the job of the developmental editor, whose desk is the first stop for many manuscripts on the road to bookdom—a route ably mapped out in the pages of Developmental Editing. Author Scott Norton has worked with a diverse range of authors, editors, and publishers, and his handbook provides an approach to developmental editing that is logical, collaborative, humorous, and realistic. He starts with the core tasks of shaping the proposal, finding the hook, and building the narrative or argument, and then turns to the hard work of executing the plan and establishing a style. Developmental Editing includes detailed case studies featuring a variety of nonfiction books—election-year polemic, popular science, memoir, travel guide—and authors ranging from first-timer to veteran, journalist to scholar. Handy sidebars offer advice on how to become a developmental editor, create effective illustration programs, and adapt sophisticated fiction techniques (such as point of view, suspense, plotting, character, and setting) to nonfiction writing. Norton's book also provides freelance copyeditors with a way to earn higher fees while introducing more creativity into their work lives. It gives acquisitions, marketing, and production staff a vocabulary for diagnosing a manuscript's flaws and techniques for transforming it into a bestseller. And perhaps most importantly, Developmental Editing equips authors with the concrete tools they need to reach their audiences.

Women as Global Leaders is the second volume in the new Women and Leadership: Research, Theory, and Practice book series published for the International Leadership Association by IAP. Global leadership is an emerging area of research, with only a small but growing published literature base. More specifically, the topic of women's advances and adventures in leading within the global context is barely covered in the existing leadership literature. Although few women are serving in global leadership roles in corporate and non-profit arenas, and as heads of nations, that number is growing (e.g., Indira Nooyi at PepsiCo, Sheryl Sandberg at Facebook, Marissa Mayer at Yahoo, Ellen Johnson Sirleaf as president of Liberia, Angela Merkel as chancellor of Germany). The purpose of this volume is to provide the reader with current conceptualizations and theory related to women as global leaders, recent empirical investigations of the phenomenon, analysis of effective global leadership development programs, and portraits of women who lead, or have led, in a global role. The volume is divided into four sections. The first section covers the state of women as global leaders, containing chapters by Joyce Osland and Nancy Adler, pioneers in the field of global and/or women's leadership. The second section describes approaches to women's global leadership. The third section offers an analysis of programs that are useful in developing women as global leaders, with the final section profiling women as global leaders, including Margaret Thatcher, Nobel Laureate Malala Yousfzai, and Golda Meir. As Barbara Kellerman noted in the Foreword, "this book... should be understood as a collection whose time has come, precisely because women now have opportunities to lead that are far more expansive than they were even in the recent past. Though their numbers remain low, they are able in some cases to exercise leadership not only as outsiders, but also as insiders, from the very positions of power and authority to which men forever have had access."

"This second edition of Australian standards for editing practice, published by the Institute of Professional Editors Limited (IPEd), the peak body for Australian editors and societies of editors, gives a solid frame to the range of knowledge and skills that competent editors possess. It includes the understanding of new technology and the flexibility to embrace new media, new rules and new language, among the many other factors that enhance clear communication".

Don't pay to promote, publicize, and market your book. The quickest ways to get free publicity for your book are to work at a writing camp (a boot camp for creative writing) and query a magazine editor to ask whether you can get a go-ahead to write an article titled, "How to Write a Syllabus for Teaching a Course In ____." (Fill in the topic of your how-to book). Use your credibility and experience to sell your books. Give three reasons why people should take you seriously and trust your credibility, commitment, and stability. Show honesty and charisma in your writing. Motivate readers by examples. Being serious and convincing, even in comedy, 'brands' your reputation with a familiar symbol, proverb, or slogan related to your skills, life experience, or expertise. Showing readers how to teach a skill or craft quickly attracts the attention of magazine and newspaper Editors. Write articles where you can mention your book. Ask "how-to" or research-based publications' editors whether you can write an article on how to solve a problem for readers of the particular specialty of the magazine. Free publicity is abundant when you solve problems or train groups with similar interests. Offer expertise in fields where instruction is welcome in research, repair, and lifestyles.
