socialization, identity construction, and the everyday fabrication and perception of the world as a meaningful, orderly place. This volume on Culinary Linguistics contains an introduction to the study of food and an extensive overview of the literature focusing on its role in interplay with language. It is the only publication fathoming the field of food and food-related studies from a linguistic perspective. The research articles assembled here encompass a number of linguistic fields, ranging from historical and ethnographic approaches to literary studies, the teaching of English as a foreign language, psycholinguistics, and the study of computer-mediated communication, making this volume compulsory reading for anyone interested in

genres of food discourse and the linguistic connection between food and culture. Now Open Access as part of the Knowledge Unlatched 2017 Backlist Collection.

Management Accounting in Support of Strategy explores how management accounting can support the strategic management process of analysis, formulation, implementation, evaluation, monitoring, and control. If the management accountant is to add value to the business they need to understand how the business works. The toolbox available to the management accountant does not just contain the accounting techniques, but also includes the strategy models and frameworks described in this book. Armed with this

array of tools the management accountant is well placed to add significant value to the business. The reader will gain an understanding of the strategic management framework, strategic models and tools, and how management accounting can support the strategic management process. It will be beneficial for undergraduate and postgraduate course students studying strategy or management accounting. The book will also enable practicing accountants to understand how they can make a significant contribution to the success of their organization by demonstrating how management accounting can be used in support of strategy.

Aiming to bridge the gap between theory and application, this work focuses on strategic management.

Now in its tenth edition, Contemporary Strategy Analysis continues its tradition of accessibility, practicality, and real-world relevance to graduate and undergraduate students around the world. Focusing on strategic analysis, value creation, and implementation, this book provides a rigorous grounding in essential principles while offering up-to-date perspectives based on practices used at leading companies across industries and borders. Comprehensive coverage merges theory and application through new and updated cases, and the discussion surrounding business policy,

business strategy, and the business environment links concept to context for a holistic understanding of the mechanisms at work. To keep pace with the field's constant evolution, this new edition has been revised to reflect the current business landscape with expanded coverage of critical topics including disruption, innovation, technology, and other factors impacting strategic planning and implementation. Global perspectives throughout highlight the dynamic nature of strategic management in the face of borderless business, equipping students with the well-rounded knowledge base the future of business demands.

Although the past few decades have witnessed growing

interest in varieties of English around the world, no study of the Nigerian variety intended for the international market has yet been published. Making use of well-known paradigms, the book will relate Nigerian English, as a ' Second Language ' variety, to other World Englishes. Its chief overall concern, however, is to provide a detailed descriptive account of the variety, seeking to show what is distinctive about it and also, in this perspective, distinguishing between more educated and less educated usage. After giving a sociolinguistic profile of Nigeria, where English today enjoys a more prominent role than ever before, it will examine in turn the phonology, morpho-syntax, and lexico-semantics of Nigerian English, with samples of

written texts from the eighteenth century to the present. It will also give a comprehensive summary of academic research carried out in the field over the past fifty years. In this way the book will provide an introduction to the subject for the benefit of scholars and students in universities in many countries, and will serve as a useful companion to other books in De Gruyter Mouton's Dialects of English series.

There are an estimated 32 million people with onychomycosis in the United States alone, making it the most common nail disease seen and treated, but also quite misunderstood. With the sole focus of this book devoted to onychomycosis, the reader is provided with

This report is the outcome of a research study initiated and financed by the ILO with the aim of better understanding Pakistani women entrepreneurs and their problems. It offers a portrayal of the specific business environment for women in this country and shows how a complex interplay of different factors has resulted in the disadvantaged status of women in society thus restricting their mobility, economic participation and business activity. The book includes the results of a survey undertaken in the region of 150 women entrepreneurs and follows with a set of recommendations. Narrative stories of 20 selected women entrepreneurs from various economic backgrounds, diverse family set-ups, and different
