Physical Science for grades 5 to 12 is designed to aid in the review and practice of physical science topics. Physical Science covers topics such as scientific measurement, force and energy, matter, atoms and elements, magnetism, and electricity. The book includes realistic diagrams and engaging activities to support practice in all areas of physical science. The 100+ Series science books span grades 5 to 12. The activities in each book reinforce essential science skill practice in the areas of life science, physical science, and earth science. The books include engaging, grade-appropriate activities and clear thumbnail answer keys. Each book has 128 pages and 100 pages (or more) of reproducible content to help students review and reinforce essential skills in individual science topics. The series is aligned to current science standards.

Reveal the vast, unseen relationship between matter and energy that's all around us with Just the Facts: Physical Science! Students discover the states of matter, the laws that govern the physical world, and much more through challenging, yet fun activities. This book contains over 100 cross-curricular lessons, word searches, data analysis, crossword puzzles, and more. Supports NSE standards

2000-2005 State Textbook Adoption.

A coloring book to familiarize the user with the Primary elements in the Periodic Table. The Periodic Table Coloring Book (PTCB) was received worldwide with acclaim. It is based on solid, proven concepts. By creating a foundation that is applicable to all science ("Oh yes, Hydrogen, I remember coloring it, part of water, it is also used as a fuel, I wonder how I could apply this to the vehicle engine I am studying..") and creating enjoyable memories associated with the elements science becomes accepted. These students will be interested in chemistry, engineering and other technical areas and will understand why those are important because they have colored those elements and what those elements do in a non-threatening environment earlier in life.

Promote student engagement and improve comprehension skills by teaching students to make connections between fiction and nonfiction texts. This resource provides high-interest passages, multiple-choice questions, and short-answer activities designed to meet the rigor of today's standards. Each assessment motivates students to look for textual evidence when answering questions. All units include writing activities linked to higher-order thinking and questioning skills. The writing ideas are designed to incorporate the skills necessary for excellent writing as well as help assess a student's ability to respond to a written prompt. Correlated to the Common Core State Standards.

Written by the author of the popular Son of Fate, this follow-up story tells of Adams Wamathina, better known as Son of Fate, who is searching for a trophy which other parties will stop at nothing to get. The action takes place in Nairobi and Tanzania and Son of Fate finds himself involved with car chases and murder as he becomes embroiled in the chase.

You've heard about "flipping your classroom"—now find out howto do it! Introducing a new way to think about higher education, learning, and technology that prioritizes the benefits of the humandimension. José Bowen recognizes that technology is profoundlychanging education and that if students are going to continue toplay enormous sums for campus classes, colleges will need to providemore than what can be found online and maximize "naked"face-to-face contact with faculty. Here, he illustrates howtechnology is most powerfully used outside the classroom, and, whenused effectively, how it can ensure that students arrive to classmore prepared for meaningful interaction with faculty. Bowen offerspractical advice for faculty and administrators on how to engagestudents with new technology while restructuring classes into moreactive learning environments.
