paint? It runs off, of course! So it is with our students. We teach them something. We can't be bothered to do the recap, the plenary, as we don't have any ideas. They leave the lesson. They promptly forget what you have taught them. There was no point their being in the lesson in the first place. The world continues turning. This practical little book of plenaries does what it says. It delivers a series of simple ideas for how to make your lesson endings - or mid-lesson recaps - interesting, engaging and cognitively challenging. Apply the ideas in this book and your students will leave the lesson with the information you have taught them still in their heads.

vernacular through the ages. In *The Story of English in 100 Words*, an entertaining history of the world's most ubiquitous language, David Crystal draws on one hundred words that best illustrate the huge variety of sources, influences and events that have helped to shape our vernacular since the first definitively English word—'roe'—was written down on the femur of a roe deer in the fifth century. Featuring ancient words ('loaf'), cutting edge terms that reflect our world ('twittersphere'), indispensable words that shape our tongue ('and', 'what'), fanciful words ('fopdoodle') and even obscene expressions (the "c word"...), David Crystal takes readers on a tour of the winding byways of our language via the rude, the obscure and the downright surprising.

you barely even recognise - is the only thing that's keeping you from where you want to be. It may be that the very characteristic that you believe got you where you are - like the drive to win at all costs - is what's holding you back. As this book explains, people often do well in spite of certain habits rather than because of them - and need a "to stop" list rather than one listing what "to do". Marshall Goldsmith's expertise is in helping global leaders overcome their unconscious annoying habits and become more successful. His one-on-one coaching comes with a six-figure price tag - but in this book you get his great advice for much less. Recently named as one of the world's five most-respected executive coaches by Forbes, he has worked with over 100 major CEOs and their management teams at the world's top businesses. His
