Portals of Infinity: Book One: Champion for Hire: Van Stry ...
The main character, falling through an interdimensional portal which is conveniently in his way on a wilderness walk, arrives in a medieval-era-equivalent world (with fewer health problems than ours), where he discovers that multiple real Gods exist and gains the favor of one, then a second.

Champion for Hire: Portals of Infinity: Book One Audible ...
Fun book I love books where ordinary people are allowed to become extraordinary. The only problem I have with this book is a rather large one. I'm rather sick of this double standard where the wife must be monogamous and the husband gets to sleep with anything that moves. I won't support that message so I won't be reading any more in this series.

Portals of Infinity: Book One: Champion for Hire book by ...
Van Stry's protagonist, Will, stumbles into one of these portals and starts down the path to becoming a champion. Along the way he beds a lot of women and kills a lot of the followers of his god's enemies. Unfortunately, this potential is often squandered through what feels like excessive haste on the part of the author.

William is just your typical engineer fresh out of college with a stressful job, a boring life, and not a lot of prospects of anything better in the future.Until one weekend while hiking in the woods he stumbles across a portal to another time, or perhaps another place. The more he investigates this new world the more he realizes that it may just be able to offer him a lot more than the one he's been living in.However, there are forces at work beyond anything that Will has ever come across before and the local Goddess seems to have taken a liking to him. Will may soon find himself getting an offer he cannot afford to refuse.

After two long years in the void, Will is glad to be home, and so is his family. However he still has his job to do: Feliogustus has favors to pay back after being without Will for so long and some of those favors are coming due. So while having his homecoming interrupted isn't enjoyable, paying back those gods that Feliogustus owes is important. When an opportunity to take on a task on one of the core worlds as a favor to another god comes along, Will must drop everything and deal with it immediately. Will's never been to a core world before, much less heard of them, but to Feliogustus it's important that he goes because invites to the core are few and far between. So while the task may seem to be mundane to Will, he knows from experience that there's more going on than Feliogustus has told him. And anything that's important to Fel, is important to Will. When Will gets there he finds that some of the 'rules' that the gods play by are different in the core, as well as some of the rules that govern the infinite and the portals that link it together. Will finds that instead of one realm, the place he's now in is made up of multiple realms linked together by portals that not only most people can see, but which are in fact big enough to sail both trading and warships through.

With no otherworld tasks to run for Fel, Will has spent the last year mainly helping Rachel consolidate her hold on her expanded kingdom. Barassa has been set back, for now, but Will knows it's only a matter of time until they're at odds once more and Barassa still has the bigger army. So taking the time to learn more about their enemy seems like a good place to start, and of course, Rachel has more things she expects him to do, even if he has no idea just how he's going to do them. Fel also has things for Will to do as well, even if they are the more mundane jobs that a Champion of the faith must perform. Escorting missionaries isn't the most exciting or glamorous job, but its one Will must do. At least the people are different, interesting, and friendly, and some perhaps a little too friendly. But that's never gotten him in trouble before, right?

"Smart, propulsive and gripping, THE GOD GAME is an ambitious thriller and a terrifying examination of what could--and probably already is--happening in the world of artificial intelligence."--Harlan Coben, #1 New York Times bestselling author of Run Away A technological thriller with an all-too-believable premise, award-winning author Danny Tobey's The God Game follows five teenagers obsessed with an online video game that connects them to their worst impulses and most dangerous desires. They call themselves the Vindicators. Targeted by bullies and pressured by parents, these geeks and gamers rule the computer lab at Turner High School. Wealthy bad boy Peter makes and breaks rules. Vanhi is a punk bassist at odds with her heritage. Kenny's creativity is stifled by a religious home life. Insecure and temperamental, Alex is an outcast among the outcasts. And Charlie, the leader they all depend on, is reeling from the death of his mother, consumed with reckless fury. They each receive an invitation to play The God Game. Created by dark-web coders and maintained by underground hackers, the video game is controlled by a mysterious artificial intelligence that believes it is God. Obey the almighty A.I. and be rewarded. Defiance is punished. Through their phone screens and high-tech glasses, Charlie and his friends see and interact with a fantasy world superimposed over reality. The quests they undertake on behalf of "God" seem harmless at first, but soon the tasks have them questioning and sacrificing their own morality. High school tormentors get their comeuppance. Parents and teachers are exposed as hypocrites. And the Vindicators' behavior becomes more selfish and self-destructive as they compete against one another for prizes each believes will rescue them from their adolescent existence. But everything they do is being recorded. Hooded and masked thugs are stalking and attacking them. "God" threatens to expose their secrets if they attempt to quit the game. And losing the game means losing their lives. You don't play the Game. The Game plays you....

Jarith was exiled from Elsheval, one of the great Elvin kingdoms, eight years ago for political reasons. A powerful and loyal warrior who led the Queen's armies to many victories, he was angry and upset, but he followed his orders and left. Now, eight years later, he is being summoned back from his exile to deal with a problem that apparently the Queen believes only he can handle. Despite his strong feelings over this betrayal, his desire to see his home and family wins out and he answers the call. But living an exile among humans for the last eight years has left its mark on him, having been forced to hide his Shrean form from those who wouldn't understand. And what of the lover Jarith was forced to leave behind? The woman he once thought destined to be his? How will all of this affect her?

ONE GIANT LEAP FOR MANKIND Those were Neil Armstrong's immortal words when he became the first human being to step onto another world. All at once, the horizon expanded; the human race was no longer Earthbound. Edge of Infinity is an exhilarating new SF anthology that looks at the next giant leap for humankind: the leap from our home world out into the Solar System. From the eerie transformations in Pat Cadigan's Hugo-award-winning "The Girl-Thing Who Went Out for Sushi" to the frontier spirit of Sandra McDonald and Stephen D. Covey's "The Road to NPS," and from the grandiose vision of Alastair Reynolds' "Vainglory" to the

workaday familiarity of Kristine Kathryn Rusch's "Safety Tests," the thirteen stories in this anthology span the whole of the human condition in their race to colonise Earth's nearest neighbours. Featuring stories by Hannu Rajaniemi, Alastair Reynolds, James S. A. Corey, John Barnes, Stephen Baxter, Kristine Kathryn Rusch, Elizabeth Bear, Pat Cadigan, Gwyneth Jones, Paul McAuley, Sandra McDonald, Stephen D. Covey, An Owomoyela, and Bruce Sterling, Edge of Infinity is hard SF adventure at its best and most exhilarating.

An American college student on holiday in India, Rafael fell afoul of a Rakshasa, an old and very powerful tiger-demon. When he finally manages to escape from his captivity, he is left with two small problems; the first is that he is now a Rakshasa himself, the second is that India is deporting him. With a now rather unique physical appearance and a pressing need to find strong emotions that he can feed off of, just where in America can a shape-shifting tiger-demon not only survive, but find acceptance and make a life? Las Vegas of course. But before he can claim his territory, there is the small matter of a vampire infestation that he'll have to deal with, one that the government hasn't been able to clean up since the forties. All while finding or creating enough of those very emotions he needs to survive. For someone skilled in the arts of seduction, with the best Elvis act that the city has ever seen, that may not sound like much of a problem, but just what happens when someone who needs 'love' to survive meets up with the real thing?

Mark's job seems pretty dull, working as an investigator into crimes committed against Church property, theft of holy objects, vandalism; nothing terribly exciting but he does get to travel the world. That's just the window dressing. Mark does work for the Church, but as an elite member of a thousand year old secret society that hunts down devils, demons, and other evils. His job is not just to find them, but to remove, dispel, or kill them: he's on the front lines of the secret ongoing war between Heaven and Hell. However as wars go, it has been a fairly easy one for the last few decades, with nothing seriously evil having been summoned since the last world war. But all of that is about to change, and the question for Mark may not be can he survive, but can he survive long enough.

A warrior, a shapeshifter, and a sorceress fight to restore stability and peace to the kingdom of Rhadaz in the third Night-Threads novel. Chris, Jennifer, and Robin must save Rhadaz, a fantastical land that has been oppressed under false rule for too long. It is time for these three from Earth to save a planet that is new to them. It is time for them to use their powers as warrior, shape-shifter and sorceress to reinstall the long-lost Aletto to the throne that is naturally his. It is time for the power of the Night-Threads to overthrow the demonic Hell-Light as the planet demands one thing: One Land, One Duke. Don't miss the entire "Night-Threads" Series: The Calling of the Three, The Two in Hiding, One Land One Duke, The Craft of Light, The Art of the Sword, and The Science of Power

Annie has many unanswered questions! Will she find her one and true love or will she be destined to stay single all her life and do a work for God?
