One of the greatest African American leaders and one of the most brilliant minds of his time, Frederick Douglass spoke and wrote with unsurpassed eloquence on almost all the major issues confronting the American people during his life—from the abolition of slavery to women's rights, from the Civil War to lynching, from American patriotism to black nationalism. Between 1950 and 1975, Philip S. Foner collected the most important of Douglass's hundreds of speeches, letters, articles, and editorials into an impressive five-volume set, now long out of print. Abridged and condensed into one volume, and supplemented with several important texts that Foner did not include, this compendium presents the most significant, insightful, and elegant short works of Douglass's massive oeuvre.

Narrative of the Life of Frederick Douglass First published in 1845, Narrative of the Life of Frederick Douglass is an eye-opening depiction of American slavery. Part autobiography, part human-rights treatise, it describes the everyday horrors inflicted on captive laborers, as well as the strength and courage needed to survive. Narrative of the Life of Frederick Douglass Born into slavery on a Maryland plantation in 1818, Frederick Douglass spent years secretly teaching himself to read and write—a crime for which he risked life and limb. After two failed escapes, Douglass finally, blessedly boarded a train in 1838 that would eventually lead him to New York City and freedom. Narrative of the Life of Frederick Douglass Few books have done more to change America ' s notion of African Americans than this seminal work. Beyond its historical and social relevancy, it is admired today for its gripping stories, the intensity of spirit, and heartfelt humanity. Narrative of the Life of Frederick Douglass This ebook has been professionally proofread to ensure accuracy and readability on all devices. Narrative of the Life of Frederick Douglass Born into a life of bondage, Frederick Douglass secretly taught himself to read and write. It was a crime punishable by death, but it resulted in one of the most eloquent indictments of slavery ever recorded. His gripping narrative takes us into the fields, cabins, and manors of pre-Civil War plantations in the South and reveals the daily terrors he suffered. Narrative of the Life of Frederick Douglass Written more than a century and a half ago by a Black man who went on to become a famous orator, U.S. minister to Haiti, and leader of his people, this timeless classic still speaks directly to our age. It is a record of savagery and inhumanity that goes far to explain why America still suffers from the great injustices of the past. Narrative of the Life of Frederick Douglass

\*\*Winner of the Pulitzer Prize in History\*\* " Extraordinary...a great American biography " (The New Yorker) of the most important African-American of the nineteenth century: Frederick Douglass, the escaped slave who became the greatest orator of his day and one of the leading abolitionists and writers of the era. As a young man Frederick Douglass (1818–1895) escaped from slavery in Baltimore, Maryland. He was fortunate to have been taught to read by his slave owner mistress, and he would go on to become one of the major literary figures of his time. His very existence gave the lie to slave owners: with dignity and great intelligence he bore witness to the brutality of slavery. Initially mentored by William Lloyd Garrison, Douglass spoke widely, using his own story to condemn slavery. By the Civil War, Douglass had become the most famed and widely travelled orator in the nation. In his unique and eloquent voice, written and spoken, Douglass was a fierce critic of the United States as well as a radical patriot. After the war he sometimes argued politically with younger African Americans, but he never forsook either the Republican party or the cause of black civil and political rights. In this " cinematic and deeply engaging " (The New York Times Book Review) biography, David Blight has drawn on new information held in a private collection that few other historians have consulted, as well as recently discovered issues of Douglass ' s newspapers. " Absorbing and even moving...a brilliant book that speaks to our own time as well as Douglass ' s " (The Wall Street Journal), Blight ' s biography tells the fascinating story of Douglass ' s two marriages and his complex extended family. " David Blight has written the definitive biography of Frederick Douglass...a powerful portrait of one of the most important American voices of the nineteenth century " (The Boston Globe). In addition to the Pulitzer Prize, Frederick Douglass won the Bancroft, Parkman, Los Angeles Times (biography), Lincoln, Plutarch, and Christopher awards and was named one of the Best Books of 2018 by The New York Times Book Review, The Wall Street Journal, The Boston Globe, The Chicago Tribune, The San Francisco Chronicle, and Time.

In the revised and updated second edition of this comprehensive book, the first anthology to integrate social-psychological literature on prejudice with sociological and historical investigations, contributors introduce readers to the key debates and principal writings on racial and ethnic conflict, representing conservative, liberal, and radical p

This book tells the story of one mans life journey in the heart of the struggle to reform the nation's schools. Fuller has always believed that it is important for poor and working class Black people to gain access to the levers of power dictating their lives. He believes that those of us who are educated and resourceful have a moral and historical responsibility to help them, and that is what he has always tried to do. Early in his life he found truth in the words of the great Frederick Douglass: " Power concedes nothing without a demand. It never did, and it never will. " " So struggle we must " says Fuller. That understanding of the relationship between struggle and progress is what propelled him down dark alleys and dirt roads in some of North Carolina's poorest communities in the 1960s and pushed him into the bush, mountains, and war-torn villages of Africa nearly a decade later. " It is what pushes me still in the fight over one of the most contentious education issues of this era: parental choice. I believe deep in my heart that giving low-income and working class parents the power (and the money) to make choices about the schools their children attend will not only revolutionize education but provide the compass to a better life for the many poor, Black children stuck in failing systems. ... Education reform is one of the most crucial social justice issues of our time, and I will spend the rest of my days fighting for my people, most especially those without the power or the resources to fight for themselves. "

Reclaiming Dissent is a unique collection of essays that focus on the value of dissent for the survival of democracy in the United States and the role that education can play with respect to this virtue. The various contributors to this volume share the conviction that the vitality of a democracy depends on the ability of ordinary citizens to debate and oppose the decisions of their government. Yet recent history in the United States suggests that dissent is discouraged and even suppressed in the political, cultural and educational arenas. Many Americans are not even aware that democracy is not primarily about voting every four years or majority rule, but about actively participating in public debates and civic action. This book makes a strong case for the need to reclaim a tradition in the United States, like the one that existed during the Civil Rights Era, in which dissent, opposition, and conflict were part of the daily fabric of our democracy. Teacher educators, teacher candidates, new teachers, and educators in general can greatly benefit from reading this book.
