A marine survey is a detailed inspection of your boat in order to determine its condition and seaworthiness. A condition and value evaluation is part

# Read PDF Practical Marine Surveying

of a marine survey and helps the insurance company identify any issues that could lead to an imminent claim. It also helps set the value of the boat the insurance company uses on the policy.

# Read PDF Practical Marine Surveying

Marine SurveyingThe need of a suitable text-book on Marine Surveying for use at the Naval Academy has been felt for several years by the officers engaged in teaching that subject.Having been engaged exclusively in

# Read PDF Practical Marine Surveying

surveying work for six years previous to my assignment to duty at the Naval Academy, I was requested by the Head of Department of Astronomy, Navigation, and Surveying to prepare a text-book on Marine Surveying to take the

# Read PDF Practical Marine Surveying

place of the one then in use. After considerable thought, I agreed to undertake the task, and the present volume is the result; and it is earnestly hoped that it may be of value, not only as a text-

# Read PDF Practical Marine Surveying

book for the Academy, but to others who may be without experience in surveying work. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at

This historic book may have numerous typos and missing

# Read PDF Practical Marine Surveying

text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1889 edition. Excerpt: ... CHAPTER VIII. TOPOGRAPHY--THE PLANE-TABLE.

# Read PDF Practical Marine Surveying

107. Under the head of secondary triangulation or coast lining were given instructions for putting in the topography near the coast. If it is desired to carry the topography farther inland, other methods must

# Read PDF Practical Marine Surveying

be used; though, for all purposes of navigation, only that portion of the country visible from a ship's deck is needed on the chart. When each peak is occupied, sketches or photographs of the surrounding country are

# Read PDF Practical Marine Surveying

taken; and from these views, from the computed heights of peaks, and from views taken from the ship's deck the contourlines are put in by the draughtsman, and the character of the country indicated by conventional

# Read PDF Practical Marine Surveying

signs. Care must be taken in drawing contour-lines that they indicate properly the slopes, directions of arroyos, canons, etc., and that rivers are not made to flow uphill No contour-line can have an end except by

# Read PDF Practical Marine Surveying

passing beyond the limits of the sheet, otherwise they must be closed curves. 108. In the topographical work of the Coast Survey the plane-table is used exclusively, and it may also be used in nautical surveys for running

# Read PDF Practical Marine Surveying

in shore-line, and with very accurate results, though at the expense of time. The plane-table comprises a drawing-board, tripod-head and tripod, and alidade. The board is made of well-seasoned wood, carefully

# Read PDF Practical Marine Surveying

constructed in panels to prevent warping, and with its upper surface perfectly plane, and has three brass sockets on its under side set at the vertices of an equilateral triangle, and equally distant from the

# Read PDF Practical Marine Surveying

centre of the board, by which it is secured by screws to the tripod-head. The tripod-head is of brass, and consists of two plates similar to the azimuth plates of a theodolite, having clamp and tangent-
