PSYCHOLOGY: CONCEPTS AND APPLICATIONS, Fourth Edition, offers a concept-based approach supported by a unique pedagogical framework. Author Jeff Nevid provides a broad view of psychology that includes history, major theories, research methods, and important research findings as well as applications of contemporary research to the problems and challenges faced in everyday life. Nevid developed the effective teaching devices in this text based on a comprehensive system derived from research on learning and memory as well as his own research on textbook pedagogy. The text's successful modular format organizes each chapter into manageable instructional units that help students focus on one topic at a time within the context of a larger chapter structure. The material also incorporates four goals that Nevid refers to as the Four E's of Effective Learning: Engaging Student Interest, Encoding

Information, Elaborating Meaning, and Evaluating Progress. In the Fourth Edition, Nevid employs a new IDEA Model of Course Assessment--unique to this text--which maps specific learning goals (tied to APA goals) to measurable skills students acquire in their first exposure to psychology. Executed throughout each chapter, the model presents learning objectives that are expressed in the form of active learning verbs, and linked to measurable learning outcomes. The model is integrated with the test-item file, making it easy for instructors to select items measuring these particular outcomes. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

ESSENTIALS OF PSYCHOLOGY: CONCEPTS AND APPLICATIONS, 5th Edition retains the hallmark features and pedagogical aids that have made this text unique in presenting the foundations of psychology in a manageable, reader-friendly format. Students gain a broad view of psychology and see applications of the knowledge gained from contemporary research to the problems and challenges we face in today's world. Nevid's comprehensive learning system, derived from research on memory, learning, and textbook pedagogy, is featured throughout. This model incorporates the Four E's of Effective Learning -- Engaging Student Interest, Encoding Information, Elaborating Meaning, and Evaluating Progress. Thoroughly updated with recent research developments, this edition also features an expanded focus on psychology in the digital world -- a topic students are sure to find fascinating and relevant. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The study guide provides students with resources aimed at improving study skills and comprehension of the text material. For each chapter, the guide provides a one-page detailed outline, a list of objectives, chapter overview, key terms and concepts, and self-testing exercises and activities that highlight key concepts from the main text. In addition, students are provided an integrated set of media resources to further improve and expand their understanding of the main course concepts.

Provides students with resources aimed at improving study skills and comprehension of the text material. For each chapter, the study guide offers a one-page detailed outline, a list of objectives, chapter review, key terms and concepts, and self-testing exercises and activities that highlight key concepts from the main text.

PSYCHOLOGY: CONCEPTS AND APPLICATIONS, International Edition, uses a unique, proven learning system that makes it easier and more enjoyable for you to learn what you need to learn and succeed in your psychology course. Author Jeff Nevid provides a broad view of psychology that includes history, major theories, research methods, and research findings as well as applications of contemporary research to the challenges you face in everyday life. The text's modular format organizes each chapter into manageable units that help you focus on one topic at a time within the context of a larger chapter structure. Concept signaling—a technique that highlights key concepts in the text margins—helps you extract the main points from the narrative. As you read, key concepts are reinforced through additional features, such as Concept Charts, Module Reviews, and Visual Overviews, which have proven to significantly improve students' retention of material and performance in class. Nevid developed the effective teaching devices in this text based on a comprehensive system derived from his research on memory, learning, and textbook pedagogy. The learning model incorporates four goals that Nevid refers to as the Four E's of Effective Learning: Engaging Student Interest, Encoding Information, Elaborating Meaning, and Evaluating Progress. Nevid also employs the proven Survey, Question, Read, Recite, Review (SQ3R) study method to enhance learning and encourage you to take an active role in the learning process.

Psychology: Concepts and Applications, 2/e, offers a concept-based approach supported by a unique pedagogical framework. Nevid provides a broad view of psychology that includes history, research methods, major theories, and research findings and their contemporary applications in everyday life. The text's successful modular format organizes each chapter into manageable instructional units that help students focus on one topic at a time within the context of a larger chapter structure. Jeffrey Nevid developed a comprehensive learning system for this text derived from his research on memory, learning, and textbook pedagogy. This learning model, which organizes the text's pedagogical features, incorporates four goals that Nevid refers to as the Four E's of Effective Learning: Engaging Student Interest, Encoding Information, Elaborating Meaning, Evaluating Progress.
