Simplified Signs presents a system of manual sign communication intended for special populations who have had limited success mastering spoken or full sign languages. It is the culmination of over twenty years of research and

Read Book

Pulse Scooter

development by the authors. The Simplified Sign System has been developed and tested for ease of sign comprehension, memorization, and formation by limiting the complexity of the motor skills required to form each sign, and by ensuring that each sign visually

Read Book

Pulse Scooter

Comprehension Manual

resembles the meaning it conveys.

Volume 1 outlines the research

underpinning and informing the project, and places the Simplified Sign System in a wider context of sign usage, historically and by different populations.

Volume 2 presents the lexicon of signs,

Read Book

Pulse Scooter

Teachers Manual

totalling approximately 1000 signs, each with a clear illustration and a written description of how the sign is formed, as well as a memory aid that connects the sign visually to the meaning that it conveys. While the Simplified Sign System originally was
