Purple Cow: Transform Your Business by Being Remarkable is a 2003 book by Seth Godin. The book presents Godin's personal belief that creative advertising is less effective today because of clutter and advertising avoidance. The book advocates that companies produce remarkable products and target people who are likely to spread word of mouth about the product. USA Today said it "reminds business people of the tried-and-true path to success: Make a great product".

In a field of black and white cows, the purple cow is the one that you would remember - turning to your travel companion and saying, "did you see...?" That's the premise of Seth Godin's book from 2002, a highly enjoyable spin through the act of being remarkable, and how businesses have transformed their fortunes by standing out from the crowd.

You're either a Purple Cow or you're not. You're either remarkable or invisible. Make your choice. What do Apple, Starbucks, Dyson and Pret a Manger have in common? How

do they achieve spectacular growth, leaving behind former tried-and-true brands to gasp their last? The old checklist of P's used by marketers - Pricing, Promotion, Publicity - aren't working anymore. The golden age of advertising is over. It's time to add a new P - the Purple Cow. Purple Cow describes something phenomenal, something counterintuitive and exciting and flat-out unbelievable. In his new bestseller, Seth Godin urges you to put a Purple Cow into everything you build, and everything you do, to create something truly noticeable. It's a manifesto for anyone who wants to help create products and services that are worth marketing in the first place.

The cult classic that revolutionized marketing by teaching businesses that you're either remarkable or invisible. Few authors have had the kind of lasting impact and global reach that Seth Godin has had. In a series of now-classic books that have been translated into 36 languages and reached millions of readers around the world, he has taught generations of readers how to make remarkable products and spread powerful ideas. In Purple Cow, first published in 2003 and revised and expanded in 2009, Godin launched a movement to make truly remarkable products that are worth marketing in the first place. Through stories about companies like Starbucks, JetBlue, Krispy Kreme, and Apple, coupled with his signature provocative style, he inspires readers to rethink what their marketing is really saying about their product. In a world that grows noisier by the day, Godin's challenge has never been more relevant to writers, marketers, advertisers, entrepreneurs, makers, product managers, and anyone else who has something to share with the world.

SELLING THE INVISIBLE is a succinct and often entertaining

look at the unique characteristics of services and their prospects, and how any service, from a home-based consultancy to a multinational brokerage, can turn more prospects into clients and keep them. **SELLING THE INVISIBLE** covers service marketing from start to finish. Filled with wonderful insights and written in a roll-up-your-sleeves, jargon-free, accessible style, such as: Greatness May Get You Nowhere Focus Groups Don'ts The More You Say, the Less People Hear & Seeing the Forest Around the Falling Trees.

How to find the soft innovation that will make your product, service, school, church, or career worth talking about. We live in an era of too much noise, too much clutter, too many choices, and too much spam. And as Seth Godin's 200,000-copy bestseller *Purple Cow* taught the business world, the old ways of marketing simply don't work anymore. The best way to sell anything these days is through word of mouth and the only real way to get word of mouth is to create something remarkable. *Free Prize Inside*, the sequel to *Purple Cow*, explains how to do just that. It's jammed with practical ideas you can use right now to make your product or service remarkable, so that it will virtually sell itself. Remember when cereal came with a free prize inside? Even if you already liked the cereal, it was the little plastic toy that made it irresistible. Godin explains how you can think of a bonus that will make your customers feel just as excited, no matter what business you're in. Consider these free prizes:

- The Tupperware party, which turned buying plastic bowls into a social event
- Flintstones vitamins, which turned a serious product into something fun
- The free change-counting machine at every Commerce Bank branch
- The little blue

box from Tiffany, which makes people happy before they even open it This book offers a way to create free prizes quickly, cheaply, and reliably and persuade others in your organization to help you bring them to life.

weird. So why are companies still trying to build products for the masses? Why are we still acting like the masses even exist? Weird is the new normal. And only companies that figure that out have any chance of survival. This book shows you how.

Presents an analysis of current marketing trends, maintaining that the marketing campaigns that succeed are those that cater to the inclination of consumers to believe the best story, irrespective of the facts.
