Universities have searched for truth over nearly a millennium. Maxwell Bennett recounts the history of this search during three of its most momentous periods in the 13th, 18th and 20th centuries, which helped fashion the idea of a university. He concludes with a cautionary assessment of whether universities, given their present level of material support, can reliably continue to protect and advance society.

Constantine and his bishops are credited for creating the early Bible in 313 AD. Canonized in 419 AD, this book would eventually morph into many versions, resulting in a host of religious beliefs and practices. Originally written by unknown Jewish scribes in ancient Hebrew and Greek languages, the Bible is the only source for many ancient and religious events. A Search for Truth in the Bible seeks out truths and untruths in the Bible. It also tries to provide an understanding of the seemingly unswerving faith that many religious practitioners have in the infallibility and power of the Bible, even though it has been shown to be flawed. From current versions of the Bible, including the Revised Standard Version, the book presents the results of studies by numerous biblical experts who have reviewed and commented on the validity of many ancient writings, including the Bible, and takes a fascinating in-depth look at one of the world's most famous, enigmatic books.

Examines the problem of excluding relevant evidence from trial. This book assesses the deleterious changes in Western culture, especially in America, by comparing what has been with what is. In doing so, the author deduces a common thread of causality at the root of this universal degeneration in politics, education, family life, religion, and social mores. This text invites the reader to contemplate how we arrived at a place where we would rather imagine who or what God is than believe what he has told us.

Philosophy Here and Now: Powerful Ideas in Everyday Life, International Edition, is a hybrid text/reader that helps students understand, appreciate, and even do philosophy.
