Education has been considered as the most important input and the most potent instrument for the development of an individual. It is the key to national prosperity and welfare and that no investment is too great for it. It is evident that education has a very important role to play in the economic and social development of the country, in the building up of the truly democratic society, in the promotion of national integration and unity, and above all for the transformation of individual in the endless pursuit of excellence and perfection. The students in a classroom have different socio-economic status, aptitudes, interests, attitudes etc. and among them have different IQ levels. In a classroom situation where the students are varied in learning levels, (i.e., average, below average and above average) most of the time teachers teach for the average, neglecting the above average and below average in their hurry to finish the syllabus. In the classroom the above average feel bored and the slow-learners remain passive and day-by-day become poor in the subject.
