Questioning is a strategy that readers use to engage with the text. Questioning techniques help the reader to clarify and comprehend what he is reading. Struggling readers tend not to ask questions of themselves or the text as they read. Teachers who model how to ask questions while reading help children to learn how to build interest with the text and become stronger readers. Questioning as an Active Reading Strategy for Strong Readers

Building Reading Comprehension through Questioning Techniques

Questioning is a reading strategy that is taught to students to help them engage with the text. It helps the reader to clarify what he or she is reading and to better understand the text. Asking good questions is a way for students to monitor their own comprehension while reading. Struggling readers approach reading as a passive experience.

In this fully revised and expanded third edition of the bestselling *Reciprocal Teaching at Work*, Lori D. Oczkus provides both tried-and-true and fresh solutions for teaching reading comprehension. Reciprocal teaching is a scaffolded discussion technique that builds on the Fab Four strategies that good readers use to understand text: predicting, questioning, clarifying, and summarizing. With a focus on these four evidence-based and classroom-tested strategies, Oczkus presents new ways to use reciprocal teaching to improve students' comprehension while actively engaging them in learning and encouraging independence. Appealing to students and teachers alike, reciprocal teaching encompasses social aspects of teaching and learning with modeling, think-alouds, and discussion. This helpful guide is packed with fresh material, including

- \* More than 40 new and updated step-by-step lessons and minilessons that reflect current thinking and best practice.
- \* Dozens of rich suggestions for diving into informational texts.
- \* Updated research and relevant results that show the effectiveness of reciprocal teaching.
- \* Creative and targeted tips that capitalize on the specific benefits of whole-class settings, guided reading groups, and literature circles.
- \* Ideas for differentiating instruction for struggling readers and English language learners.
- \* New and newly designed support materials, including reproducibles, posters, bookmarks, and a lesson planning menu.

With a wealth of ideas to get you started—and keep you going—this is the all-inclusive resource you need to help students become active, engaged, and independent readers who truly comprehend what they read. Reviews and Testimonials

"Literacy coach and author Lori Oczkus knows how to take the best of what works from long-established research and showcase it to make teaching and learning more effective, engaging, and enjoyable. In her latest edition of *Reciprocal Teaching at Work*, she demonstrates how to scaffold instruction so that all K–12 students can benefit from reciprocal teaching techniques, what she calls the "Fab Four"—predicting, questioning, clarifying, and summarizing—in whole-group, guided reading, and book club settings, for both fiction and informational texts. In clearly delineated lessons and minilessons, Lori deftly shares how to support students' learning, including English language learners and students who struggle, so they can successfully apply and monitor those four discussion strategies—as well as troubleshoot problems—to yield significant progress in their reading comprehension. Filled with great practical ideas, this gem of a book is a must-have for all literacy educators!" —Regie Routman, author of *Read, Write, Lead; Literacy Essentials*, and *Reading Essentials*

"Reciprocal teaching works to push students into deeper learning. There are decades of research on the impact of this instructional approach, and this book shows you how to implement and refine the practice such that all students succeed." —Doug Fisher, author of *Checking for Understanding and Visible Learning for Literacy*

"One of the great instructional research discoveries of the past three decades has been the efficacy of reciprocal teaching for improving student learning and reading comprehension. More than anyone, Lori Oczkus has explored practical ways for making reciprocal teaching an integral part of nearly any classroom setting. This current work by Lori represents the epitome of her work in translating reciprocal teaching research into practice. Readers will find this immensely readable book filled with strategies that can be easily implemented and that will improve student learning. If you are interested in improving your students' reading achievement, you need to read this book!" —Timothy Rasinski, author of *The Fluent Reader and Close Reading with Paired Texts*

"In this new edition of *Reciprocal Teaching at Work*, Lori Oczkus offers new thinking while reinforcing the best practices that make her ideas timeless. Through these engaging lessons and smart instructional moves, you will empower your students to build the confidence and competence they need to become strong, independent readers." —Donalyn Miller, author of *The Book Whisperer*

"On every page of this book, in every activity and plan, the voice of a gifted and empowering teacher inspires the reader. In a major revision of her classic work, Lori Oczkus engages the immediacy and demands of today's classrooms with the most robust constellation of strategies for teaching comprehension. She

Young scientists will love this nature mystery that reveals the secrets hiding in seeds, plants, flowers, and fruits throughout the life cycle of various flora. Curiosity will bloom in this introduction to botany and primary nature science. Plants come in all shapes and sizes, but they go through the same stages as they grow. Using four common plants, young readers learn about plant structure and life cycle. Simple text and colorful, detailed illustrations show the major phases of plant growth with each stage holding a "secret" for curious readers to guess. Back matter offers more information on each plant, as well as greater detail on each stage of growth.

In this new edition of their groundbreaking book *Strategies That Work*, Stephanie Harvey and Anne Goudvis share the work and thinking they've done since the second edition came out a decade ago and offer new perspectives on how to explicitly teach thinking strategies so that students become engaged, thoughtful, independent readers. Thirty new lessons and new and revised chapters shine a light on children's thinking, curiosity, and questions. Steph and Anne tackle close reading, close listening, text complexity, and critical thinking in a new chapter on building knowledge through thinking-intensive reading and learning. Other fully revised chapters focus on digital reading, strategies for integrating comprehension and technology, and comprehension across the curriculum. The new edition is organized around three sections: Part I provides readers with a solid introduction to reading comprehension instruction, including the principles that guide practice, suggestions for text selection, and a review of recent research that underlies comprehension instruction. Part II contains lessons to put these principles into practice for all areas of reading comprehension. Part III shows you how to integrate comprehension instruction across the curriculum and the school day, particularly in science and social studies. Updated bibliographies, including the popular "Great Books for Teaching Content," are accessible online. Since the first publication of *Strategies That Work*, more than a million teachers have benefited from Steph and Anne's practical advice on creating classrooms that are incubators for deep thought. This third edition is a must-have resource for a generation of new teachers--and a welcome refresher for those with dog-eared copies of this timeless guide to teaching comprehension.
