Astronomically, the intersection points of the sun and moon - on their movements in the celestial sphere - are called Rahu and Kethu. They are also called the north node and south node. Rahu and Kethu are unimaginably huge dark shadows in space. During their transit, when their shadow falls on any planet, that planet's all-effects will be completely altered or diverted by Rahu and Kethu. Rahu and Kethu are solely responsible for a beggar to become a millionaire and a millionaire to become a beggar. This book elaborately discusses the effects of Rahu and Kethu. In the horoscope, how Rahu and Kethu are positioned, how the planets and the houses (Bhavas) are affected by them in the birth chart are all analysed in this book. It gives me immense pleasure to bring forth the second revised edition of my highly cherished work of Bhrigu Samhita, an ancient and unique treatise in predictive astrology. I was equally elated and feel ecstatic for having received encouraging as well as critical responses from the esteemed and avid readers. It deference to their valuable suggestions and also some ambiguity pointed by them, I have revised some part of the chapter on "Basic Astrology" and also brought about improvement and amplifications in certain parts of the analyses of various charts wherein the evolved principles which are specifically important in delineating horoscopes on the format of Bhrigu Samhita are further explained. This was done with a view to make the explanations more cogent in comprehend. This will also address the concern sown by the valued readers in some places of earlier narrations.

Bhrigu Samhita is an astrological classic written by Maharishi Bhrigu in the Vedic Period. This was the first treatise on predictive astrology which formed the basis for further research and analysis. This book is a concise version of the original Bhrigu Samhita. It is specially written to cater to the needs and interests of both laymen and experts. It provides valuable hints on how to find out the character of a native, his moral inclination, and his fortunes and misfortunes in various walks of life. It also imparts useful information with regard to longevity and prosperity of the native, his parents, brothers and children. Self-explanatory content well-segregated into various chapters would enable not only a professional astrologer, but also an amateur to predict with accuracy the future of the native and form an opinion as to how a planet is disposed in a particular nativity.

The Ancient Indian astrological system of prediction, namely the Naadi system, is unique in its accuracy in predicting the events in one's life. However, the rules are rather complex and have been closely guarded secrets, through the ages. There are several Naadi systems and each one has its own method, with slight variations. This book deals with its own Naadi method with an assurance for better accuracy in predictions. It presents complex rules of Planetary Progression, Retrogression and Exchange with examples and makes it less ambiguous. The methods of working out planetary positions at any period of time in an individual's life for accurate predictions are clearly explained in the book. The rules presented in this book are different from one the author had talked about in his earlier book. It uses them to logically address the procedures for accurate predictions. This is an ideal text-book for beginners of astrology.
