Siblings who constantly bicker; a child having trouble in school; and parents and kids who don't communicate or have fun together anymore. Step-by-step strategies aid parents in building good family relationships, preventing and correcting misbehavior, using consequences to improve behavior, teaching self-control, and staying calm. This updated edition shows parents how to approach discipline as positive teaching rather than punishment. As each new parenting technique is introduced, the authors explain each step, provide many clear examples, and give you an action plan for implementing it in your home. Also addressed are topics of special interest - how to deal with school problems, computer misuse, and Internet and social media dangers.

Behavior analysis, a rapidly growing profession, began with the use and application of conditioning and learning techniques to modify the behavior of children or adults presenting severe management problems, often because of developmental disabilities. Now behavior analysts work in a variety of settings, from clinics and schools to workplaces. Especially since their practice often involves aversive stimuli or punishment, they confront many special ethical challenges. Recently, the Behavior Analysis Certification Board codified a set of ten fundamental ethical guidelines to be followed by all behavior analysts and understood by all students and trainees seeking certification. This book shows readers how to follow the BACB guidelines in action. The

Authors first describe core ethical principles and then explain each guideline in detail, in easily comprehensible, everyday language. The text is richly illuminated by more than a hundred vivid case scenarios about which the authors pose, and later answer questions for readers. Useful appendices include the BACB Guidelines, an index to them, practice scenarios, and suggested further reading. Practitioners, instructors, supervisors, students, and trainees alike will welcome this invaluable new aid to professional development.
