Bishop Ough asks every congregation in the Dakotas Conference to develop a plan for how to return to in-person worship in a gradual manner. The question we need to shift our attention to asking isn't about when to re-open our churches and resume gathering but how to do it. In order to keep people healthy and safe, recovering from the pandemic is going to need to be a marathon, not a sprint.

"The Guide to Manuscripts describes manuscript collections of the State Historical Society of North Dakota, regardless of form or size. Manuscript collections described in the Guide consist of records or papers of private organizations (businesses, associations, clubs, etc.) or individuals significant in North Dakota history; small or one-item manuscripts usually relating to a single subject; or artificial aggregates of manuscripts and other material that have historical or literary value. Records of North Dakota state agencies are described in a separate publication, Guide to the North Dakota State Archives."--Pref.

Social and Ethical Aspects of Radiation Risk Management provides a comprehensive treatment of the major ethical and social issues resulting from the use of ionizing radiation. It covers topics such as nuclear fuel cycles, radioactive waste treatment, nuclear bomb testing, nuclear safety management, stakeholder engagement, cleanup after nuclear accidents, ecological risks from radiation, environmental justice, health and safety for radiation workers, radiation dose standards, the ethics of clinical radiology, and the principles of radiation protection and their ethical underpinnings. With authors ranging from philosophers to radiation protection officials and practitioners, the book spans from theoretical to practical implications of this important area of radiation risk assessment and management. Covers all the major social and ethical issues in relation to radiation protection Information is easily accessible and non-technical Authors include leading radiation protection officials as well as specialists who are more independent of the radiation protection system, thus presenting both authoritative and more critical views Includes theoretical perspectives as well as practical experience
