Welcome to England's beautiful Lake District, where a reluctant reunion forges a new bond between a daughter and her wayward mother.... Abby Rhodes is just starting to get her life on track. After her fiancé's unexpected death, she returned with her young son to the small village where she grew up and threw herself into helping her ailing grandmother run the town's beach café. Then one evening, her mother, Laura, shows up in Hartley-by-the-Sea and announces her plan to stay. After twenty years away, she now wants to focus on the future—and has no intention, it seems, of revisiting the painful past.

NEW YORK TIMES BESTSELLER • Pierce Brown's relentlessly entertaining debut channels the excitement of *The Hunger Games* by Suzanne Collins and *Ender's Game* by Orson Scott Card. "Red Rising ascends above a crowded dystopian field."—USA Today NAMED ONE OF THE BEST BOOKS OF THE YEAR BY ENTERTAINMENT WEEKLY, BUZZFEED, AND SHELF AWARENESS "I live for the dream that my children will be born free," she says. in the color-coded society of the future. Like his fellow Reds, he works all day, believing that he and his people are making the surface of Mars livable for future generations. Yet he toils willingly, trusting that his blood and sweat will one day result in a better world for his children. But Darrow and his kind have been betrayed. Soon he discovers that humanity reached the surface generations ago. Vast cities and lush wilds spread across the planet. Darrow—and Reds like him—are nothing more than slaves to a decadent ruling class. Inspired by a longing for justice, and driven by the memory of lost love, Darrow sacrifices everything to infiltrate the legendary Institute, a proving ground for the dominant Gold caste, where the next generation of humanity's overlords struggle for power. He will be forced to compete for his life and the very future of civilization against the best and most brutal of Society's ruling class. There, he will stop at nothing to bring down his enemies . . . even if it means he has to become one of them to do so. Praise for *Red Rising* “[A] spectacular adventure . . . one heart-pounding ride . . . Pierce Brown’s dizzyingly good debut novel evokes *The Hunger Games*, *Lord of the Flies*, and *Ender’s Game*. . . . The rise and fall of Britain's most important industry No one personified the age of industry more than the miners. The Shadow of the Mine tells the story of King Coal in its heyday - and what happened to mining communities after the last pits closed. Coal was central to the British economy, powering its factories and railways. It carried political weight, too. In the eighties the miners risked everything in a year-long strike against Thatcher's shutdowns. Defeat foretold the death of their industry. Tens of thousands were cast onto the labour market with a minimum amount of advice and support. Yet British politics all of a sudden revolves around the coalfield constituencies that lent their votes to Boris Johnson's Conservatives in 2019. Even in the Welsh Valleys, where the 'red wall' still stands, support for the Labour Party has halved in a generation. Huw Beynon and Ray Hudson draw on decades of research to chronicle these momentous changes through the words of the people who lived through them.
