Falling in love was a distraction, one Dante Goshawk knew he couldn ' t afford. So when his relationship with a brilliant scientist grew too intense, he broke it off. And ended up dying anyway. Now that he's back from the dead, he realizes the woman he pushed away is the only one he ' s ever loved. But Elisa isn't so eager to give him another chance. The clock is ticking on Dante ' s recovery. A new experiment, an android pilot designed for the asteroid racing circuit, needs his memories and his consciousness to make it complete. And some are willing to kill--again--to make the technological leap a reality. Though Phoenix Rising is the second book in the series, it follows a different set of characters from the first book and can be read as a stand-alone.

But only marriage—an impossible bond between two people so different—allows Aiden to protect Kara from the city's ultimate hatred. Perhaps death is the better choice, if he could only let her go.
