This paper examines the battle of Teutoburg (9 A.D.), its consequences on the Roman world, and the role cultural misunderstanding played on the tactical, operational, and strategic levels. The Roman commander 's cultural misunderstanding of his enemy caused mistakes at the operational and tactical levels, while the Roman Emperor 's cultural misunderstanding brought about mistakes at the strategic level and created poor policy decisions following the battle, which affected Rome like no other battle in its history. Chapter 2 examines the consequences of other Roman loses (with much higher casualties) to show how none of them carried the same impact as the Teutoburg loss. They were but temporary " setbacks " , while Teutoburg was Rome 's first military " defeat " in its history. The Roman direction of conquest into Germania and the image of the pre-Teutoburg Germanic barbarian (an image which changes greatly into an elevated status following the massacre) are also examined. Chapter 3 examines the commanders of both sides and the battle itself. Chapter 4 looks at the significance of this loss. This battle caused Rome to adopt its first permanent defensive boundary and set the first limit of the Roman Empire.

creating an empire that eventually included much of Europe, the Near East and North Africa. What distinguished the Roman army from its opponents was the uncompromising and total destruction of its enemies. Yet this ferocity was combined with a genius for absorbing conquered peoples, creating one of the most enduring empires ever known. In Roman Warfare, celebrated historian Adrian Goldsworthy traces the history of Roman warfare from 753 BC, the traditional date of the founding of Rome by Romulus, to the eventual decline and fall of Roman Empire and attempts to recover Rome and Italy from the "barbarians" in the sixth century AD. It is the indispensable history of the most professional fighting force in ancient history, an army that created an Empire and changed the world.

The most dangerous mission of their military careers awaits two heroes of the Roman army in Britain. In *The Eagle and the Wolves*, the epic fourth novel of Simon Scarrow's series, it's A.D. 44 and Vespasian and the Roman Army's Second Legion are forging ahead in their campaign to seize the southwest. Centurion Macro and newly appointed Centurion Cato are ordered by Vespasian to provide Verica, aged ruler of the Atrebates, with an army. They must train his tribal levies into a force that can protect him, enforce his rule, and take on the increasingly ambitious raids that the enemy is launching. But open revolt is brewing. Despite the Atrebates' official allegiance to Rome, many are wary of the legions and want to resist the Roman invaders, and Macro and Cato must first win the loyalty of the disgruntled levies before tackling the enemy without. Can they succeed while surviving a deadly plot to destroy both them and their comrades serving with the eagles?
