This work is a step-by-step guide to the RICS Assessment of Professional Competence (APC). Written for candidates, it takes you from enrolment on the scheme through to the final interview and beyond.

As an APC supervisor or counsellor you must ensure you have up-to-date knowledge of its requirements and concepts. This guide is essential for those steering APC candidates into the surveying profession provides support for all who carry out these roles, through all stages of the APC.

Graduates undertaking the RICS Assessment of Professional Competence (APC) often find that, in addition to the general information provided by the RICS, guidance is needed on specific areas of their work as general practice surveyors. How to Pass the APC: Essential Advice for General Practice Surveyors has been built around the needs of general practice surveyors, and guides you through the APC process in line with your own competencies – including valuation, marketing, landlord and tenant, estate management, rating, and planning and development work, together with more specialist areas. The author highlights the essentials, showing you how to approach the presentation and interview, providing a bank of examples of real APC questions, together with illustrative responses to demonstrate how the interview process works. Accessible and easy to use, this book gives you comprehensive coverage of the fundamental elements and is a must read for anyone taking the APC.

Thinking about a career in property or construction? Thinking of becoming a Chartered Surveyor? How to Become a Chartered Surveyor demystifies the process and provides a clear road map for candidates to follow. The book outlines potential pathways and practice areas within the profession and includes the breadth and depth of surveying, from commercial, residential and project management, to geomatics and quantity surveying. Experienced APC assessor and trainer, Jen Lemen BSc (Hons) FRICS, provides invaluable guidance, covering: routes to becoming a Chartered Surveyor, including t-levels, apprenticeships and alternative APC routes such as the Senior Professional, Academic and Specialist assessments areas of professional practice advice for the AssocRICS, APC (MRICS), FRICS and Registered Valuer assessments, including both written and interview elements advice on referrals and appeals how to support candidates, including the role of the Counsellor and Supervisor opportunities for further career progression, including further qualifications and setting up in practice as an RICS regulated firm global perspectives professional ethics for surveyors Written in clear, concise and simple terms and providing practical advice throughout, this book will help candidates to decode and understand the RICS guidance, plan their career and be successful in their journey to become a Chartered Surveyor. It will also be of relevance to academic institutions, employers, school leavers, apprentices, senior professionals, APC Counsellors/Supervisors and careers advisors.

The RICS New Rules of Measurement mean that the constructionindustry now has a way of allowing a more consistent approach tothe measurement and estimating of buildings from the start ofaproject, right through until the end, and beyond. Estimating and cost planning using the New Rules ofMeasurement offers comprehensive guidance on all the technicalcompetencies concerned with estimating throughout theprecontractstages. It provides a full commentary to the NRM, with detailed andcomprehensive examples of how to measure estimates and cost plansin accordance with this new prescriptive approach. For both students and practitioners, the acquisition oftechnical competencies is by practice so this book offersstep-by-step worked examples to follow as well as an exercise oneach topic. Key Features • helps dispel anxieties about using a new method in animportant area of fee generation • based on the author's successful Roadshows, organisedby the RICS • companion websites provide support for learning: ahref="http://ostrowskiquantities.com"/>"http://ostrowskiquantities.com/aand ahref="http://www.wiley.com/go/ostrowski/estimating"www.wiley.com/go/ostrowski/estimating/a

Built environment students are not always familiar with the range of different research approaches they could be using for their projects. Whether you are undertaking a postgraduate doctoral programme or facing an undergraduate or masters dissertation, this book provides general advice, as well as 13 detailed case studies from 16 universities in 7 countries, to help you get to grips with quantitative and qualitative methods, mixed methods of data collection, action research, and more.

Continuing Professional Development (CPD) is the means by which the professions across the world ensure that their knowledge and skills remain up to date and relevant to changing needs and environments. CPD significantly contributes to the quality and reputation of the professions and therefore to the quality of national and international social life and economic well being. Starting with a discussion on what CPD is, the author analyzes how professional bodies govern CPD, what support they provide to individual professionals and how they measure or evaluate what individuals do under the provenance of CPD. Continuing Professional Development explains why, up to now, CPD has been a relatively neglected subject in spite of it being carried out by millions. It argues whether a variety of perspectives or visions of CPD has held back wider public appreciation of it and if greater co-ordination by professional bodies, or the introduction of new players to the field, will change this in the future. Providing the first comprehensive study of the subject, this innovative book will be required reading for CPD professionals and researchers and is a fascinating read for all professionals, especially those involved with human resource development and management / leadership development.

RICS APC Revision Guide - 2021 Version for Project Managers and Quantity Surveyors. The purpose of this book is to support candidates progress their APC and ultimately achieve MRICS status. This guide aims to give extensive Level 1 knowledge, support with drafting the Summary of Experience and Case Study, and ultimately prepare the candidate for the final assessment with the RICS.
