Organizational Behaviour

Organizational behaviour affects all of us, every single day. But do your students struggle to see the subject's relevance? Do they have difficulty going beyond its most commonplace theories? Do they wonder how it will help them in their future career? Then take a step into the lobby of Junction Hotel! We follow the experiences of its managers and employees as a new consortium tries to rebuild the success of a once-great establishment that has fallen on hard times. This fictional running case study helps students see how theory translates into practice in a familiar setting. For example, what kind of leadership styles do the new management team use? Are personality tests any use for hiring new staff for the gym? How do the staff on the receiving end of various management techniques feel and react? Follow the management dilemmas faced, and the techniques employed with varying rates of success, by a wide range of characters. The running case is interwoven throughout the book, encouraging students to make links between the different topic areas and gain a holistic view of organizational behaviour. The book covers all the core topics found on undergraduate modules, while also going a step further to consider alternative approaches and compare them with mainstream theories. Students are encouraged to develop a critical mindset and think about the context of the theories they come across and the values embedded within them. A wealth of real-life case studies, including those drawn from the public and not-for-profit sectors, bring the subject to life.Innovative on-page learning features link study and employability skills to the topics being discussed so students can apply theories from the book directly to their own lives and future careers. Interviews with students, employees and business leaders are included online, and show just how relevant organizational behaviour is to people's everyday lives. The real-life examples in the second edition have been augmented with new international and European examples in every chapter, and the book's Online Resource Centre now features seminar and group activities and a lecturer guide to help lecturers make full and effective use of the book and online material in their teaching. A unique, lively package makes this core reading for all business students taking an introductory module in organizational behaviour.

Get the most out of your Google Chromebook Are you the proud new owner of a Google Chromebook and a little—or a lot—intimidated by the technology? You've come to the right place! Chromebook For Dummies walks you through setting up the device, transitioning from traditional computers and working in the cloud, customizing Chromebook to suit your needs, navigating the apps and their uses, and applying advanced settings and features. Fear not: with the step-by-step guidance and helpful information inside, there's no reason to break a sweat. Chromebooks are affordable, fast, and sleek—and with Google driving the initiative, they're impossible to ignore. So it's no wonder they're gaining popularity and enticing people from all walks of life to make the switch from a traditional PC or laptop. If you're one of those people and want to make the most of your experience, this book is a practical user's guide to all things Chromebook. Covers all Chromebooks on the market Provides coverage of all Chromebook features in an easy-to-follow manner Serves as the go-to reference for successfully using a Chromebook Includes step-by-step coverage of everything you'll encounter with your Chromebook If you're a new or inexperienced user who wants to maximize the performance of your Google Chromebook, you'll turn to this friendly guide time and again.

With a name like hers, Indiana Jones knows she ought to be adventurous and daring, but when she's tricked into taking a vacation on her own and discovers she's staying at a resort for swingers, she wants to spend the week in her room. But the place is run by two of the most tempting men she's ever seen. She could have just what she wants and no one would ever know.Marc finds it hard to see his partner Kyle in physical and mental anguish, but if the guy won't talk about it, what can he do? Finding a third might be the answer, and he has just the woman in mind, unless she runs off before he can make her smile.Crippled and depressed, Kyle can't even kiss his partner and wonders why the guy puts up with him. If only he could let the past go and move on. Maybe, just maybe, an intriguing guest will show him the way.

Do you currently own a Chromebook, or are considering purchasing one for yourself, or someone else? If so, this is the Chromebook guide and user manual for you! As a Chromebook owner, Shelby Johnson has put together this guide in various formats to help current and new owners of the devices get the most from them. Make sure to pick up this inexpensive manual today so you can begin using your Chromebook to its full extent!

Organizational Behaviour

Organizational Behaviour

In the fall of 1930, David Packard left his hometown of Pueblo, Colorado, to enroll at Stanford University, where he befriended another freshman, Bill Hewlett. After graduation, Hewlett and Packard decided to throw their lots in together. They tossed a coin to decide whose name should go first on the notice of incorporation, then cast about in search of products to sell. Today, the one-car garage in Palo Alto that housed their first workshop is a California historic landmark: the birthplace of Silicon Valley. And Hewlett-Packard has produced thousands of innovative products for millions of customers throughout the world. Their little company employs 98,400 people and boasts constantly increasing sales that reached \$25 billion in 1994. While there are many successful companies, there is only one Hewlett-Packard, because from the very beginning, Hewlett and Packard had a way of doing things that was contrary to the prevailing management strategies. In defining the objectives for their company, Packard and Hewlett wanted more than profits, revenue growth and a constant stream of new, happy customers. Hewlett-Packard's success owes a great deal to many factors, including openness to change, an unrelenting will to win, the virtue of sustained hard work and a company-wide commitment to community involvement. As a result, HP now is universally acclaimed as the world's most admired technology company; its wildly successful approach to business has been immortalized as The HP Way. In this book, David Packard tells the simple yet extraordinary story of his life's work and of the truly exceptional company that he and Bill Hewlett started in a garage 55 years ago.

Chromebooks are perfect for Seniors. Hopefully you are at a state in your life where the Internet helps you but doesn ' t define you. You don ' t need to have a powerhouse computer that can have 200 spreadsheets running at the same time or watching a movie while you have 100 other apps open! You just want a computer that lets you check up on things, and maybe stream a movie or to. In a word: something simple. If that sounds like you, then all you have to do is figure out how to use a Chromebook! Fortunately, if you ' ve ever used the Internet, then that part will come pretty easy. This book will walk you through what you need to know so you can be up and running in no time. Ready? Let ' s get started!NOTE: This book is not endorsed by Alphabet, Inc. It contains content from "The Ridiculously Simple Guide to Chromebook" but with added content on accessibility.
