This original and "meticulously researched retelling of history's most infamous voyage" (Denise Kiernan, New York Times bestselling author) uses the sinking of the Titanic as a prism through which to examine the end of the Edwardian era and the seismic shift modernity brought to the Western world. "While there are many Titanic books, this is one readers will consider a favorite" (Voyage). In April 1912, six notable people were among those privileged to experience the height of luxury—first class passage on "the ship of dreams," the RMS Titanic: Lucy Leslie, Countess of Rothes; son of the British Empire Tommy Andrews; American captain of industry John Thayer and his son Jack; Jewish-American immigrant Ida Straus; and American model and movie star Dorothy Gibson. Within a week of setting sail, they were all caught up in the horrifying disaster of the Titanic's sinking, one of the biggest news stories of the century. Today, we can see their stories and the Titanic's voyage as the beginning of the end of the established hierarchy of the Edwardian era. Writing in his signature elegant prose and using previously unpublished sources, deck plans, journal entries, and surviving artifacts, Gareth Russell peers through the portholes of these first-class travelers to immerse us in a time of unprecedented change in British and American history. Through their intertwining lives, he

examines social, technological, political, and economic forces such as the nuances of the British class system, the explosion of competition in the shipping trade, the birth of the movie industry, the Irish Home Rule Crisis, and the Jewish-American immigrant experience while also recounting their intimate stories of bravery, tragedy, and selflessness. Lavishly illustrated with color and black and white photographs, this is "a beautiful requiem" (The Wall Street Journal) in which "readers get the story of this particular floating Tower of Babel in riveting detail, and with all the wider context they could want" (Christian Science Monitor).

The scourge of the high seas, the Black Angel would stop at nothing to get what he wanted--until a bold beauty captures his heart and makes him want to be a better man. Original.

Half a century before Titanic, another famous shipwreck captured the hearts and imagination of the world. In 1857, laden with gold and adventurers fresh from the California Gold Rush, the luxury sidewheel steamer SS Central America went down in a hurricane off the Carolina coast. Many were saved, many were lost, and lives were changed forever. Relive the experiences of her passengers, as told through the eyes of a fictitious couple who find love and danger on the high seas aboard this first "Ship of Dreams." On her own in wild, wicked, post-Gold Rush San Francisco, Della Gilliland has become a bit of a con artist, though a harmless one. Falsely accused of murder by a rival snake-oil salesman, she is forced to flee the lawless city's vigilantes aboard an outbound steamer. Surely her quick wits and tongue can convince someone to help her until her pursuers are far behind. Stuffy New York businessman Kent Bradford is shocked when a lovely redhead he's never met suddenly introduces herself as his wife to an important business contact. Fearing a scene, he plays along . . . for the moment. But moments turn into weeks and growing attraction becomes something more. Then, only days out from New York, their ship encounters a hurricane that threatens not only their budding love, but their very lives. Book 2 of the Americana Dreaming series

As the Titanic sank, John Harper was focused on saving souls. As his life came to a close, he still preached the gospel.

From the acclaimed Booker Prize-winning author comes a dazzling novel of family, love and love's disappointments. Anna's aged mother is dying. Condemned by her children's pity to living, subjected to increasingly desperate medical interventions, she turns her focus to her hospital window, through which she escapes into visions of horror and delight. When Anna's finger vanishes and a few months later her knee disappears, Anna too feels the pull of the window. She begins to see that all around her, others are similarly vanishing, yet no one else notices. All Anna can do is keep her mother alive. But the window keeps opening wider, taking Anna and the reader ever deeper into an eerily beautiful story of grief and possibility, of loss and love and orange-bellied parrots. Hailed on publication in Australia as Richard Flanagan's greatest novel yet, *The Living Sea of Waking Dreams* is a rising ember storm illuminating what remains when the inferno beckons: one part elegy, one part dream, one part hope.

This critical examination of two dystopian television series--*Black Mirror* and *Electric Dreams*--focuses on pop culture depictions of technology and its impact on human existence. Representations of a wide range of modern and futuristic technologies are explored, from early portrayals of artificial intelligence (Rossum's *Universal Robots*, 1921) to digital consciousness transference as envisioned in *Black Mirror*'s "San Junipero." These representations reflect societal anxieties about unfettered technological development and how a world infused with invasive artificial intelligence might redefine life and death, power and control. The impact of social media platforms is considered in the contexts of modern-day communication and political manipulation.
