Numerical Test Now!

SHL/CEB tests typically work using banks of questions. If there are 20 questions on a test, those 20 might be randomly chosen from a question bank of 200 that changes for each intake. If you can access at least a substantial portion of that question bank before you take the test, then you can prepare the answers in advance, significantly increasing your chance of scoring highly.

3 Ways To Cheat On SHL Tests (And Why You Shouldn't!)

Most of SHL's numerical reasoning questions are displayed in both charts and tables, so familiarizing yourself with this test format can help interpret the given data in a fast and efficient way. Take our advice - practice with our simulated SHL numerical test
