A number of colleges teach “ five ideas ” that shaped physics (usually omitting either unit T or Q), and many people use R and Q as the basis for a modern physics course. Two of the important goals in the third edition was to make the units even more independent and also to provide instructors with more flexibility within units.

McGraw-Hill Education's Connect, is also available as an optional, add on item. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, how they need it, so that class time is more effective. Connect allows the professor to assign homework, quizzes, and tests easily and automatically grades and records the scores of the student's work. Problems are randomized to prevent sharing of answers and may also have a "multi-step solution" which helps move the students' learning along if they experience difficulty.
