It was hot at Padachina even for a summer day. In this village were many houses, but not a soul could be seen anywhere. The bazaar was full of shops and the lanes were lined with houses built either of brick or of mud. Every house was quiet. The shops were closed, and no one knew where the shopkeepers had gone. Even the street beggars were absent. The weavers wove no more. The merchants had no business. Philanthropic persons had nothing to give. Teachers closed their schools. Things had come to such a pass that children were even afraid to cry. The streets were empty. There were no bathers in the river. There were no human beings about the houses, no birds in the trees, no cattle in the pastures. Jackals and dogs morosely prowled in the graveyards and in the cremation grounds. One great house stood in this village. Its colossal pillars could be seen from a distance. But its doors were closed so tight that it was almost impossible for even a breath of air to enter. Within the house a man and his wife sat deeply absorbed in thought. Mahendra Singh and his wife were face to face with famine. The year before the harvests had been below normal. So rice was expensive this year and people began to suffer. Then during the rainy season it rained plentifully. The villagers at first looked upon this as a special mercy of God. Cowherds sang in joy, and the wives of the peasants began to pester their husbands for silver ornaments. All of a sudden, God frowned again. Not a drop of rain fell during the remaining months of the season. The rice fields dried into heaps of straw. Here and there a few fields yielded poor crops, but government agents bought these up for the army. So people began to starve again. At first they lived on one meal a day. Soon, even that became scarce, and they began to go without any food at all. The crop was too scanty, but the government revenue collector sought to advance his personal prestige by increasing the land revenue by ten per cent. And in dire misery Bengal shed bitter tears. Beggars increased in such numbers that charity soon became the most difficult thing to practise. Then disease began to spread. Farmers sold their cattle and their ploughs and ate up the seed grain. Then they sold their homes and farms. For lack of food they soon took to eating leaves of trees, then grass and when the grass was gone they ate weeds. People of certain castes began to eat cats, dogs and rats.

Sometimes, a little nudge from the universe pushes one to find his *raison d'etre* in life. If actor Sonu Sood had given in to the celebrity syndrome of sitting in his ivory tower and expressing his generosity by remote control, he would have never come face to face with the trauma of India's migrant labourers or understood that a food packet was a woefully inadequate substitute for a ride back home. During the nationwide lockdown, imposed in the wake of the COVID-19 pandemic, when a wave of poverty-stricken migrants set out on foot to make their arduous journey back home, the value of *seva*, service to mankind, instilled in him by his parents, spurred Sonu Sood into action. From taking to the streets and reaching out to the stranded, to setting up a dedicated team and making arrangements for national and international transport, Sonu managed to help thousands of helpless and needy workers. Thus, began his 'Ghar Bhejo' programme, carried out like a humanitarian mission. Chartered flights, buses and trains were sanitized and paid for. Distress calls from all over the world were answered. Soon, the movement snowballed into a campaign for providing jobs, medical facilities and educational aid to workers. The silver-screen villain transitioned into a real-life superhero. In his memoir, *I Am No Messiah*, Sonu Sood combines the extraordinary experiences of his journey from Moga to Mumbai with the writing skills of veteran journalist and author Meena K. Iyer. Honest, inspirational and heart-warming, this is the story of Sonu Sood and of the people whose lives he continues to transform.

This book depicts marketing in contemporary and future India by providing a clear

understanding of the marketing concepts, with due emphasis on developing application skills. It comprehensively discusses marketing management concepts and frameworks with numerous illustrations and cases in the Indian context. This revised and up-to-date text presents the evolving marketing scenario with the latest marketing data. Salient Features - Emphasis on 'Innovations in Marketing' through examples and cases. - Numerous new examples, data, research inputs and concepts introduced. - Outcome-based pedagogy with Learning Objectives and content tagged with LO.

Newborn Screening for Sickle Cell Disease and other Haemoglobinopathies is a Special Issue of the International Journal of Neonatal Screening. Sickle cell disease is one of the most common inherited blood disorders, with a huge impact on health care systems due to high morbidity and high mortality associated with the undiagnosed disease. Newborn screening helps to make the diagnosis early and to prevent fatal complications and diagnostic odysseys. This book gives an overview of diagnostic standards in newborn screening for sickle cell disease and examples of existing newborn screening programs.

The #1 New York Times bestseller that examines how people can champion new ideas in their careers and everyday life—and how leaders can fight groupthink, from the author of *Think Again* and co-author of *Option B* “Filled with fresh insights on a broad array of topics that are important to our personal and professional lives.” —The New York Times DealBook “*Originals* is one of the most important and captivating books I have ever read, full of surprising and powerful ideas. It will not only change the way you see the world; it might just change the way you live your life. And it could very well inspire you to change your world.” —Sheryl Sandberg, COO of Facebook and author of *Lean In With Give and Take*, Adam Grant not only introduced a landmark new paradigm for success but also established himself as one of his generation’s most compelling and provocative thought leaders. In *Originals* he again addresses the challenge of improving the world, but now from the perspective of becoming original: choosing to champion novel ideas and values that go against the grain, battle conformity, and buck outdated traditions. How can we originate new ideas, policies, and practices without risking it all? Using surprising studies and stories spanning business, politics, sports, and entertainment, Grant explores how to recognize a good idea, speak up without getting silenced, build a coalition of allies, choose the right time to act, and manage fear and doubt; how parents and teachers can nurture originality in children; and how leaders can build cultures that welcome dissent. Learn from an entrepreneur who pitches his start-ups by highlighting the reasons not to invest, a woman at Apple who challenged Steve Jobs from three levels below, an analyst who overturned the rule of secrecy at the CIA, a billionaire financial wizard who fires employees for failing to criticize him, and a TV executive who didn’t even work in comedy but saved *Seinfeld* from the cutting-room floor. The payoff is a set of groundbreaking insights about rejecting conformity and improving the status quo.

Fashion law encompasses a wide variety of issues that concern an article of clothing or a fashion accessory, starting from the moment they are designed and following them through distribution and marketing phases, all the way until they reach the end-user. Contract law, intellectual property, company law, tax law, international trade, and customs law are of fundamental importance in defining this new field of law that is gradually taking shape. This volume focuses on the new frontiers of fashion law, taking into account the various fields that have recently emerged as being of great interest for the entire fashion world: from sustainable fashion to wearable technologies, from new remedies to cultural appropriation to the regulation of model weight, from advertising law on the digital market to the impact of new technologies on product distribution. The purpose is to stimulate discussion on

contemporary problems that have the potential to define new boundaries of fashion law, such as the impact of the heightened ethical sensitivity of consumers (who increasingly require effective solutions), that a comparative law perspective renders more interesting. The volume seeks to sketch out the new legal fields in which the fashion industry is getting involved, identifying the new boundaries of fashion law that existing literature has not dealt with in a comprehensive manner.

Karan Johar is synonymous with success, panache, quick wit, and outspokenness, which sometimes inadvertently creates controversy and makes headlines. KJo, as he is popularly called, has been a much-loved Bollywood film director, producer, actor, and discoverer of new talent. With his flagship Dharma Production, he has constantly challenged the norms, written and rewritten rules, and set trends. But who is the man behind the icon that we all know? Baring all for the first time in his autobiography, *An Unsuitable Boy*, KJo reminisces about his childhood, the influence of his Sindhi mother and Punjabi father, obsession with Bollywood, foray into films, friendships with Aditya Chopra, SRK and Kajol, his love life, the AIB Roast, and much more. In his trademark frank style, he talks about the ever-changing face of Indian cinema, challenges and learnings, as well as friendships and rivalries in the industry. Honest, heart-warming and insightful, *An Unsuitable Boy* is both the story of the life of an exceptional film-maker at the peak of his powers and of an equally extraordinary human being who shows you how to survive and succeed in life.

The creative and cultural industries represent a growing and important sector in the global economy. Thriving in these industries is particularly tough and organizations face unique challenges in the digital age. This textbook provides a vivid initiation into the creative industries workplace. *Managing Organizations in the Creative Economy* is the first textbook of its kind, introducing organizational behaviour theories and applying them to the creative world. The text is underpinned by the latest research and theoretical insights into creative industries management and organisational behaviour, covering contemporary issues such as business decision-making, ethics, and sexuality. The authors bring theory to life through practical examples and cases provided by industry experts, supported by specially created companion videos featuring managerial responses to the cases. This unique textbook provides readers with an applied theoretical understanding of organizational behaviour that will be of particular benefit to those looking to work in the creative and cultural industries. Students on courses such as arts business, arts management, music business and even the broader study of the entertainment industries will find this to be a vital read.

This volume is devoted to understanding the politics in, and of, communication. The contributors explore the political terrain on which various processes of communication unfold, as well as investigating the political configurations of communication processes. Through conceptual articulations, theoretical constructs and empirical data, the volume addresses such questions as: how fruitful is communication as a concept? What types of insights does it yield? and Do these insights emanate from academic engagements or from practices within society? .. *Communication Processes Volume 2: Domination and Appropriation* .. Bernard Bel et al Cloth (0-7619-3446-4) available March 2006
