hundred years. As he's forced to adjust to life in the future he finds himself reinstated as a policeman, and together with the great great great great grandson of his former subordinate, Sergeant Dewbush, he's put on the case of a missing cow. This, the first in the brand new Space Police series, is a hilariously funny Sci Fi space comedy that's just perfect for fans of Douglas Adams Hitchhiker's Guide to the Galaxy, Terry Pratchett, and the Space Team books. WHAT PEOPLE ARE SAYING ABOUT DAVID BLAKE'S WORK" Absurd comedy of the style Douglas Adams used to grace us with has been in short supply since he left for what has been, I must say, an unreasonably long tea time. Though many have attempted to fill in during his absence, this work comes closer than anything I've since read without sounding like it's specifically trying to fill those sweaty, beer-soaked loafers." Absolutely ludicrous situations in fun settings poking humor at established institutions. Terrifically funny much of the way. Occasionally lost the perspective of what this story was about because there were so many odd bits and characters, many of which were not fully developed or fleshed out, but worth the read. Bought

**\*\* A Standalone Short Story with No Cliffhanger! \*\*** When I married Andrew many years ago, I thought nothing would come in between. I thought I would spend the rest of my life with him. But then a terminal illness took him and broke my heart. I spent the years after his death pouring my heart and all my strength into my work, which made me a multi-awarded US Space Police Officer by the year 2045. That was also the year that I tried to open up my heart again to someone. I thought my police partner and boyfriend Kent and I would build something great together. But when we were sent to Planet Zil for a special mission, destiny came into play. We were torn apart and I found myself abducted by one of the

enemies - a genetically engineered human soldier who happened to be my late husband. As we spent time together, all my feelings resurfaced once again. Here I was with the man I had exchanged "I Do"s with, yearning to have another chance to start anew yet uncertain if he was still the same man deep inside underneath the monster he'd been made to be. Should I escape as soon as I had the chance, and finish off my mission with Kent? Or would my love conquer everything this second time around? --- TAGS: alpha male alien romance, alpha male romance, scifi alien romance, alien abduction romance, alpha male aliens, alien fantasy books, alien romance, aliens, scifi romance, Space opera romance, science fiction romance, steamy science fiction romance, hot aliens, fantasy alien romance, paranormal romance, military science fiction books, paranormal with sex, fantasy fiction, psychic romance, steamy

You Human: The Leander Chronicle is the dark core, the gravitational mass of the quintet, towards the unMaking of Heaven. Within You Human genetic manipulation and genocide will be encountered, sexual obsession/gratification and the nature of love will be explored. You Human is the book towards which the first two books, Balant and Happiness, led; and spinning off from its gravitational mass will be the final two books, Not Now: Death, Dreams and Reasons for Living and finally the unMaking of Heaven.

Recent global appropriations of public spaces through urban activism, public uprising, and political protest have brought back democratic values, beliefs, and practices that have been historically associated with cities. Given the aggressive commodification of public re- sources, public space is critically important due to its capacity to enable forms of public dis- course and social practice which are fundamental for the well-being of democratic societies. Public Space Reader brings together public space scholarship by a cross-disciplinary group of academics and specialists whose essays consider fundamental questions: What is public space and how does it manifest larger cultural, social, and political processes? How are public spaces designed, socially and materially produced, and

managed? How does this impact the nature and character of public experience? What roles does it play in the struggles for the just city, and the Right to The City? What critical participatory approaches can be employed to create inclusive public spaces that respond to the diverse needs, desires, and aspirations of individuals and communities alike? What are the critical global and comparative perspectives on public space that can enable further scholarly and professional work? And, what are the futures of public space in the face of global pandemics, such as COVID-19? The readers of this volume will be rewarded with an impressive array of perspectives that are bound to expand critical understanding of public space.

Space Comedy Book 4 became the centre of both a young democracy and a vibrant artistic scene by the early 1980s. Louie Dean Valencia-García skillfully examines how young Spaniards occupied public plazas, subverted Spanish cultural norms and undermined the authoritarian state by participating in a postmodern punk subculture that eventually grew into the 'Movida Madrileña'. In doing so, he exposes how this antiauthoritarian youth culture reflected a mixture of sexual liberation, a rejection of the ideological indoctrination of the dictatorship, a reinvention of native Iberian pluralistic traditions and a burgeoning global youth culture that connected the USA, Britain, France and Spain. By analyzing young people's everyday acts of resistance, *Antiauthoritarian Youth Culture in Francoist Spain* offers a fascinating account of Madrid's youth and their role in the transition to the modern Spanish democracy.

As adventurers of the grand cosmos, Mr. Jason Space and Captain Helena Galaxy seek to discover new worlds and new adventures and to have fun while doing it. They will never do paid mercenary work, no matter how good the offer, for they are explorers and not mercenaries. They will complete every mission they undertake, no matter how much trouble it gets them into. And they will never give up, regardless of whatever menacing aliens or dangerous obstacles they run into. When Space returns to Earth in response to a letter he receives from his estranged, ex-super soldier mother, he learns of a plot to murder her and now must protect his mother's life from the mysterious killers who want her dead.
