From the Preface: "Strategy is no longer the exclusive concern of generals. It is not something you wait to think about until you are the president of an organization. You need to understand strategic thinking right now, as a graduate entering the workforce, a newly appointed supervisor, or a mid-level manager. Corporations, small businesses, non-profits, and public agencies – organizations of all kinds – are discovering how important it is for employees to understand why the organization interacts the way it does with customers, competitors, and other actors. Many then ask their employees to help strengthen current connections and invent new ones."
