This study guide offers comprehensive coverage of the NCARB ARE 5.0 exam study material for ALL 6 EXAM DIVISIONS. * Practice Management * Project Management * Programming & Analysis * Project Planning & Design * Project Development & Documentation * Construction & Evaluation. The guide includes two additional major sections: * Codes, Regulations & Standards * NCARB Formulas. This is a text-based guide intended to serve as a summary of the various topics and information that may appear on NCARB's ARE 5.0 Exam. This resource provides a simplified, summarized, and comprehensive study aid, in bulleted format, that establishes a list of topics that should be studied, with enough material on each topic to provide a firm grasp of the material being covered. Ideally, the study guide would be used as an initial primer for studying for each exam and as a review of the study material prior to taking the exam. The study guide is organized based on NCARB's ARE 5.0 sections to provide the user with a direct correlation between study material and the exams. Though the study guide is formatted based on the ARE, it is also intended to be a useful resource to practicing designers and architects. The guide includes the following ADDITIONAL FEATURES: * Study material is presented in bulleted form for simpler information intake * Study Checklists are provided for each exam * Summary of the AIA contracts and forms * Summary of NCARB's legislative text and rules of conduct * Explanation and examples of the NCARB Formulas provided on the exam * Summary of the 2015 International Building Code * Summary of the ADA design guidelines * Each page is labelled as to the exam and the topic section for easy navigation * Tips for studying and exam-taking

The ARE Sketches(tm) were born out of my journey to become a licensed architect and the study process I used by turning written verbiage into sketches for visual understanding. They have been shared online with others testing for their license as well as with those who simply enjoy learning about architecture. This book is whatever you want it to be. A flipbook of cool sketches. A visual study guide. A way for you to learn more about architecture. Each sketch provides a nugget of information in bite-size form, perfect for reading at your own pace with your own breaks. Write in the margins. Sketch in the blank space (there's purposefully room for that). Sketch on top of my sketches. Share it with a friend. Most of all, enjoy this wonderful world of architecture. This is the second in what will be a six part series of visual study materials for the ARE (Architect Registration Exams), covering mainly Site Planning & Design - with overlap to other tests. I get a handful of emails each week from people just like you, working hard towards getting their license. I love hearing from them and I love being able to help. That is the root of where this book was born - because a young licensed architect empowered to make the world better is a positive in my book.
