A castle can be made safe from the undead, but not from the people inside the walls. It is seven months since the outbreak. In the anarchy and chaos that came with the undead, civilisation was destroyed. In the wars that followed, the planet was nearly ruined. Billions died. Only a few thousand survived. Fifty people have found refuge in the Tower of London. Zombies plague the city outside the old fortress. The wasteland beyond is filled with nothing but radioactive ruins. With nowhere left to retreat to, and in a final attempt to make the ancient castle a place where they can do more than just slowly starve, the survivors search for food in the abandoned coastal farms. They find something else. They discover that hunger, thirst, and the undead aren ’ t the only threat they face. Betrayal and danger lurk in the shadows in this, the sixth novel in the series. It will conclude in Book 7: Home.

Zombies. The outbreak began in New York. Soon it had spread to the rest of the world. People were attacked, infected, and they died. Then they came back. No one is safe from the undead. As anarchy and civil war took grip across the globe, Britain was quarantined. The British press was nationalised. Martial law, curfews and rationing were implemented. It wasn't enough. An evacuation was planned. The inland towns and cities of the United Kingdom were to be evacuated to defensive enclaves being built around the coast, the Scottish Highlands, and in the Irish Republic. Bill Wright, a Westminster insider and an advisor to a future Prime Minister, broke his leg on the day of the outbreak. Unable to join the evacuation, he watched from his window as the streets filled with refugees. He watched as the streets emptied once more. He watched as they filled up again, this time with the undead. Then the power went out. He is trapped. He is alone. He is running out of food and water. He knows that to reach the safety of the enclaves he will have to venture out into the wasteland that once was England. On that journey he will ultimately discover the horrific truth about the outbreak, a decades old conspiracy, and his unwitting part in it. This is the first volume of his journal. (73,000 words)

Save Australia. Save the World. Three weeks after the outbreak, most nations have collapsed. An ever-increasing number of refugees flee, by boat and air, to the perceived safety of the remote Pacific nations. In Australia, every able body is conscripted, local and newcomer alike. The lucky few are put to work in the new factories, farms, and mines. The unlucky many are given tools for weapons, put aboard cruise-ships and cargo freighters, and returned to the ever-moving frontline. But even though the death toll rises, victory is still within reach. The recordings made in North America by Pete and Corrie Quinn contained more than the siblings realised. The footage from Canada and Michigan is further confirmation the outbreak was no accident. The Canadian scientist, Dr Avalon, can prove it. As Commissioner Tess Qwong takes justice to the increasingly lawless outback, Anna Dodson brings order to the chaos of Parliament House, and Dr Avalon works on a weapon to finally destroy the undead. But no plans can survive the impact of a nuclear bomb. From a lawless natural gas refinery in Queensland to the once golden coast of New South Wales. Behind the barricaded streets of Canberra and in the bunker beneath Parliament House, there is still hope for Australia, the Pacific, the world, as long as the lights remain on.

Whoever wins the election, humanity will lose. Nine months after the outbreak, ten thousand survivors from across the globe have found a refuge on the Welsh island of Anglesey. Hordes of the undead ravage the wastelands of Britain and Ireland. Satellite images show that the rest of the world is no better. Food, fuel, and ammunition are running low and there are no more old-world supplies with which to replace them. Intended as an alternative to a slide into despotism, an election is called. It is hoped the contest will bring forth solutions to the myriad crises facing this last bastion of humanity. After the favoured candidate is hospitalised, suspicion falls on the new frontrunner, a publican who purchased his support with an impossible promise of a return to the pre-apocalyptic world. With no viable candidate, and no way of calling off the election, those who still have access to a ship plan their departure; others plan to rig the contest; a few give up on all plans for a future beyond tomorrow. Anglesey is on the verge of collapse, and humanity is on the brink of extinction. Set in Belfast, the Isle of Man, and Wales during the run-up to the election on Anglesey, this is the sixth volume of Bill Wright ’ s journals.

The outbreak changed everything, but there are those born even the undead can't break. It's been six years since Pete Quinn last saw his sister, Corrie. He always hoped to see her again, but feared she was dead. When an elusive billionaire reveals Corrie is living under an assumed name in the Australian outback, Pete unquestioningly jumps at the chance of a reunion. But you can't win the lottery without buying a ticket, and billionaires don't do favours for free. Corrie is in hiding from her old employer, and from the Rosewood Cartel. Now that they've both found her, only a miracle can save the two siblings, and what happens in Manhattan can't be described as miraculous. What begins as a viral outbreak soon turns into an impossible horror. People are infected and die, only to rise up and continue transmitting the infection. Even as the army is mobilised, the virus spreads beyond the borders of the United States. Nowhere is safe from the living dead.As Australia is quarantined, the mining town of Broken Hill becomes a transit hub for the relief effort. Tourists are evacuated while civilians are conscripted, Pete and Corrie among them. Together with a bush pilot, a flying doctor, and an outback cop, the struggle to maintain civilisation begins. Supplies run low. Looting is rampant. Laws are forgotten, especially by the cartel who haven't abandoned their search for Corrie and their quest for revenge.Set in Broken Hill and beyond as the Australian quarantine begins.As this book returns to the beginning of the outbreak, it can be considered a good entry point for readers new to the series.

The undead rose. Nations collapsed. Some people survived. Three months after escaping from London, Bill discovers the true extent of the global war that followed the outbreak. Most of the world has been destroyed, but there is a safe haven in a small village on the Irish coast. When he is told of the sanctuary awaiting them, he also discovers that the scientist who created the virus escaped from New York. In order for any of them to ever truly be safe, Bill will have to head north to confront the man, discover the truth behind the outbreak and finally choose between his old family and his new one. This is the third volume of his journal. This story of an undead Britain continues in Unsafe Haven. The outbreak in New York, and Sholto's attempt to destroy the cabal behind it are told in Here We Stand: Infected. Other books in the series: 1: London, 2: Wasteland (Zombies vs The Living Dead) 3: Family, 4: Unsafe Haven. 5: Reunion. 6: Harvest. 7: Home, & Here We Stand 1: Infected & 2: Divided.
Post-apocalyptic detective novels: Serious Crimes, Counterfeit Conspiracy & Work, Rest, Repeat.

It took three weeks to destroy civilisation. It won't be rebuilt in a day. A year after the outbreak, a sharp winter is followed by a sudden thaw. Spring has come early to Nova Scotia, bringing new hope. For the thirteen thousand survivors who've found sanctuary in northern Canada, and for the first time since the apocalypse, extinction isn't imminent. But it looms large in the near future, a legacy of the nuclear war that destroyed civilisation.As the weather improves, some survivors quit the small community. Even more plan their departure. The old-world supplies of food, oil, and ammunition have been consumed. More will have to be grown, drilled, and made. Medicine, paper, clothes: in a few years there will be none left to salvage. If it can't be manufactured, it will have to be forgone. What knowledgs can't be preserved will be lost.Humanity's future appears bleak unless more people can be found. Hoping there is some truth in the rumours of a redoubt in Vancouver, an expedition to the Pacific is launched. The journey will be perilous as North America was ground zero for the outbreak, and for the nuclear war.Set in Canada and beyond, as survivors from the Atlantic and Pacific meet.Please note, this book features places and events, and heroes and villains from the saga of the Pacific survivors told in the series Life Goes On.

A Pulitzer Prize-winning doctor, reporter and author of War Hospital reconstructs five days at Memorial Medical Center after Hurricane Katrina destroyed its generators to reveal how caregivers were forced to make life-and-death decisions without essential resources. Reprint. A best-selling book. On the NYT list of 10 Best Books of 2013.

If not us, who? If not now, when? As the much-depleted United Nations meets in Canberra, the scale of the global catastrophe becomes clear. The tsunami left Brisbane a flooded ruin. Vanuatu has disappeared. The Madagascan evacuation has failed. Vancouver has been reduced to a radioactive crater. For as far west as Mozambique, as far to the east as Chile, and as far north as Canada, the world is a catalogue of devastation. From the Atlantic, there has been no news since the early days of the outbreak, four weeks ago. With the satellite networks down, searching for survivors is difficult. With the relief fleets destroyed, rescue is impossible. While the fallout is still settling, the collective minds of the refugees in Australia focus on rebuilding as a distraction from the rising risk of radiation and extinction. Commissioner Tess Qwong has a different duty. She must find those responsible for this ultimate crime against humanity. Her investigation into the failed coup provides the identity of those behind the outbreak and the location of their lab. With her midlt group of Special Forces and civilian conscripts, she heads to Mozambique. There, a New Zealand frigate will take them on into the unknown dangers of the Atlantic. But while they hunt the radioactive seas for the war criminals, below the waves their enemy is hunting for them. From Perth to Panama, from South Africa to South America, from paradise islands to radioactive wastelands, the battle against extinction continues.
