Suzuki TS125 Parts - Motorcycle Products Ltd. The Suzuki TS125 was a two-stroke dual-purpose on/off road motorcycle. It featured oil injection so you just had to keep the oil tank full. An interesting feature was that it was set-up to run without the battery, although the battery was needed to power the headlight, tail light & directionals. Although only a 125cc motorcycle, my bike came equipped with passenger foot pegs. This little bike ...

Katharine Susannah Prichard was born in 1883 to Australian parents then living in Fiji, but she grew up in Tasmania, lived for a while in both Melbourne and London before finally settling in Western Australia. She was one of the co-founders of the Communist Party of Australia in 1921, and her status as a communist and a female writer led to her being frequently under surveillance and harassment by the Australian police and other government authorities. She wrote *The Black Opal* in 1921, and the novel focuses on the very close-knit opal-mining community living and working on Fallen Star Ridge, a fictitious location set in New South Wales, Australia. Life is hard for the miners as their fortunes rise and fall with the amounts and quality of black opal they can uncover. Black opal is a beautiful mineral with fiery gleams of color, much valued for jewelry. Finding productive seams of such opal is a matter of both hard work and good luck. The novel is a well-drawn study of the relationships of the people living on the Ridge, and the two main characters are portrayed with clarity: Michael Brady, an older man much respected by the other miners for his knowledge and ethical approach, and Sophie Rouminol, a beautiful teenage girl who is the darling of the camp but who abruptly runs away to America after being disappointed in love. Despite the difficulties the individual miners face, there is a community spirit and an agreement on basic values and principles of behavior at the Ridge. But this community of shared endeavor is eventually jeopardized by the influence of outsiders, in particular an American who wishes to buy up the individual mines, operate them under a company structure, and simply pay the miners a salary. This conflict between capitalism and honest manual labour becomes one of the most important themes of the work. This book is part of the Standard Ebooks project, which produces free public domain eBooks.

Aside from the odd four-stroke built in their formative years, it wasn't until 1976 that Suzuki manufactured such machines in significant numbers. Until then, it was two-strokes all the way. These models, many of which were the basis of successful racers, carried names like Titan, Cobra, Sebring, LeMans, Kettle, and Water Buffalo along with their coders. The author examines these models and others, providing the reader with: -- Extensive specification tables high lighting the variations in seemingly similar models -- Information to help the reader match model and marketing codes, essential when ordering parts or servicing a machine -- A model chart that matches full codes to their exact year, shows the ears in which models were built, and explains the relationship between similar codes Also included is the RE5 with its rotary engine and unique styling, and Suzuki's minute but complex road racers, which carried as many as 14 speeds in their gearboxes. Illustrated throughout with black-and-white photographs of the models and their variants.

A sequel to *Earthly Joy* follows the life of John Tradescant the Younger, who works as a gardener to King Charles I before fleeing to the Royalist colony of Virginia in order to protect his family, a decision that tests his botanical talents and involves him in the plight of Native Americans whose lives are threatened by colonial settlers. Reprint. 85,000 first printing.
