Where a beneficiary has a share of the total income of the trust, and the beneficiary is resident in Malaysia in that year, that share may be deducted from the total income of the trust body in arriving at its chargeable income. The beneficiary is directly taxable on such share. This mechanism avoids double taxation of the income from the share.

Offers a clear and concise analysis of Malaysia's current taxation system in terms of its origin and its adaptation to changing economic and social conditions. With unique insights from experienced legal, accounting, and tax practitioners, as well as eminent academics, this book highlights the need for a holistic review of the taxation system going forward as the country strives for high-income status in the near future. Commissioned by the Malaysian Tax Research Foundation, this book fulfils the government's call for greater industry-academia collaboration and serves as a timely reminder about the importance of taxation in moving our country forward. This book comes at a pivotal time as we venture into new Malaysia. This book is a relevant and useful resource for scholars and policymakers alike as they seek to understand Malaysia's taxation system.
