The industry-leading textbook for collision repair and refinishing is now updated to the NATEF 2006 Collision Repair and Refinish Program Standards. Written with clearer explanations and more detail than any other collision repair learning tool on the market, Auto Body Repair Technology, Fifth Edition delves into all aspects of collision repair, from initial collision evaluation, to estimating, to final paint detailing. And because the book is written by a leading author in the auto body field, readers will feel confident that they are learning skills and procedures that incorporate the latest advances in materials and methods. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

The Tech Manual is designed to bridge the chapter content with application in the shop.

## Read Book Tech Manual For Duffys Auto Body Repair Technology

The Tech Manual is designed to help readers apply what they learn from chapter content through hands-on activity in the shop.

Instructors edition contains a variety of instructional support in the margins of each page to supplement your instruction. Includes answers to end-of-chapter review questions and ASE-type questions.

Modern Automotive Technology supports career readiness for those wishing to pursue a job in the automotive industry. Organized around the ASE automobile test areas, it details the construction, operation, diagnosis, service, and repair of late-model automobiles and light trucks. Student-focused content is presented using a building block approach that starts with the fundamental principles of system operation and progresses gradually to complex diagnostic and service procedures. Thorough coverage of the latest developments in the automotive field, including hybrid technology and direct gasoline injection, helps prepare students to service and repair today's complex vehicles. Modern Automotive Technology is also a perfect reference for those preparing for the ASE automobile certification tests. \* Organized around the ASE automobile test areas and correlated to the 2013 NATEF Task List (MLR, AST, and MAST). \* Short sentences, concise definitions, strong pedagogical learning support, and thousands of color images help students learn quickly and easily. \* Strong emphasis on electricity and electronics provides students with a thorough understanding of this key topic.

This new book covers all the necessary tasks for gaining knowledge of collision repair and refinishing as outlined by NATEF. In-depth coverage includes structural and non-structural analysis and damage repair, welding, painting and refinishing, paint chemistry, sacrificial coatings for corrosion resistance, and more. The logical progression of topics and easy-to-understand style help convey the professional knowledge and technical know-how that readers need to employ on the job. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
