Travel with Comparative Mythologist Joseph Campbell to discover the power of myth in Asia At the beginning of his career, Joseph Campbell developed a lasting fascination with the cultures of the Far East, and explorations of Buddhist and Hindu philosophy later became recurring motifs in his vast body of work. However, Campbell had to wait until middle age to visit the lands that inspired him so deeply. In 1954, he took a sabbatical from his teaching position and embarked on a yearlong voyage through India, Thailand, Cambodia, Burma, Hong Kong, Taiwan, and finally Japan. Asian Journals combines the two hardcover editions of Campbell's journals, Baksheesh & Brahman and Sake & Satori, into one paperback volume, an edited day-to-day travel diary of the people he met and the historical places he visited on his trek through Asia. Along the way, he enlivens the narrative with his musings on culture, religion, myth, and politics, describing both the trivial and the sublime. As always, Campbell's keen intellect and boundless curiosity shine through in his lucid prose. From these pages, Campbell enthusiasts will come away with a deeper understanding of the man, his work, and his enduring legacy.

Thou Art That is a compilation of previously uncollected essays and lectures by Joseph Campbell that focus on the Judeo-Christian tradition. Campbell explores common religious symbols, reexamining and reinterpreting them in the context of his remarkable knowledge of world mythology.Campbell believed that society often confuses the literal and metaphorical interpretations of religious stories and symbols. In this collection, he eloquently reestablishes these symbols as a means to enhance spiritual understanding and mystical revelation. With characteristic verve, he ranges from rich storytelling to insightful comparative scholarship. Included is editor Eugene Kennedy's classic interview with Campbell in the New York Times Magazine, which originally brought the scholar to the attention of the public.

This major volume is a collection of the writings of Joseph Ratzinger (Pope Emeritus Benedict XVI) on the theology of the Liturgy of the Church, a subject of preeminence to him as a theologian, professor and spiritual writer. It brings together all his writings on the subject, short and long, giving his views on liturgical matters and questions over many years and from various perspectives. He chose to have his writings on the Liturgy for the first volume published of his collected works (though listed as vol. 11) because, as he says in the Introduction: "The liturgy of the Church has been for me since my childhood the central reality of my life, and it became the center of my theological efforts. I chose fundamental theology as my field because I wanted first and foremost to examine thoroughly the question: Why do we believe? But also included from the beginning in this question was the other question of the right response to God and, thus, the question of the liturgy." By starting with the theme of liturgy in this volume, Ratzinger wants to highlight God's primacy, the absolute precedence of the theme of God. Beginning with a focus on the liturgy, he said, tells us that "God is first". He quotes from the Rule of St. Benedict, "Nothing is to be preferred to the liturgy", as a way of ordering priorities for the life of the Church and of every individual. He says that the fundamental question of the man who begins to

understand himself correctly is: How must I encounter God? Thus learning the right way of worshipping is the gift par excellence that is given to us by the faith. The essential purpose of his writings on the liturgy is to place the liturgy in its larger context, which he presents in three concentric circles. First, the intrinsic interrelationship of Old and New Testament; without the connection to the Old Testament heritage, the Christian liturgy is incomprehensible. The second circle is the relationship to the religions of the world. The third circle is the cosmic character of the liturgy, which is more than the coming together of a circle of people: the liturgy is celebrated in the expanse of the cosmos, encompassing creation and history at the same time.

Collected here are the major works of Joseph Stalin in English along with several less prominent works that either help put things in context or have other historical or political value. We trust that the reader will be satisfied with this collection.

Joseph Campbell, arguably the greatest mythologist of our time, was certainly one of our greatest storytellers. This new cloth edition of *The Hero's Journey*, published to celebrate the 100th anniversary of Campbell's birth, recounts his own quest and conveys the excitement of his lifelong exploration of our mythic traditions, what he called "the one great story of mankind."

Explore the mysteries of the feminine divine Joseph Campbell brought mythology to a mass audience. His bestselling books, including *The Power of Myth* and *The Hero with a Thousand Faces*, are the rare blockbusters that are also scholarly classics. While Campbell 's work reached wide and deep as he covered the world 's great mythological traditions, he never wrote a book on goddesses in world mythology. He did, however, have much to say on the subject. Between 1972 and 1986 he gave over twenty lectures and workshops on goddesses, exploring the figures, functions, symbols, and themes of the feminine divine, following them through their transformations across cultures and epochs. In this provocative volume, editor Safron Rossi—a goddess studies scholar, professor of mythology, and curator of collections at Opus Archives, which holds the Joseph Campbell archival manuscript collection and personal library—collects these lectures for the first time. In them, Campbell traces the evolution of the feminine divine from one Great Goddess to many, from Neolithic Old Europe to the Renaissance. He sheds new light on classical motifs and reveals how the feminine divine symbolizes the archetypal energies of transformation, initiation, and inspiration.
