An exploration of Chinese art and culture, *Bamboo in China* shines a light on this relatively unknown craft. The noted British scholar Joseph Needham concluded from his thorough study of the history of Chinese science and technology that the "East Asian civilization is none other than a bamboo civilization" and China is just the cradle of that bamboo civilization. Since bamboo has been used for thousands of years in China and in many aspects of daily life, it became an influential part of the Chinese culture. With the tributes to bamboo and the extolling of its strengths, it was further blended into China's Confucian, Buddhist and Taoist thinking to give birth to a cultural phenomenon uniquely Chinese that has since spread far and wide. This beautifully illustrated book presents a vivid history of bamboo in China: The uses of bamboo in daily life, production, musical instruments, transportation, architecture and landscaping, hydraulic engineering and the military. Traditional treatments of bamboo by Chinese artisans, including two main artistic processing techniques. Bamboo wares with a unique Chinese flavor such as fans, oilpaper

This is a fully illustrated guide to the art, craft and design of bamboo, as demonstrated by the Japanese. It demonstrates how to use inexpensive materials to create sophisticated effects in the home and garden. A list of bamboo collections, gardens and research sources is included. For centuries, bamboo has fascinated legions of craftspeople, plant lovers and devotees of the handcrafted object. And nowhere is bamboo used more elegantly and distinctly than in Japan. Its presence touches every part of daily life-art, crafts, design, literature, and food. Its beauty

“Stangler expresses [the] virtues and properties of this grass-family member, then lays out in detail instructions for 30 projects. The book's mood is at one with nature: a loose flowing text around color photographs, black-and-white illustrations, step-by-step how-tos, and boxed commentaries.”—Booklist. “Should be welcome in all garden and crafts collections.”—Library Journal.

Shows the art and craft of the bamboo basket and its companion arts -- Ikebana (flower arranging) and the tea ceremony. Since World War II, there has been limited access to information about Japanese bamboo baskets. Discusses the Japanese philosophy of art and traces it as related to bamboo as a raw material, to Ikebana, to the tea ceremony, and to the tokonoma, an alcove in traditional

without the use of rivets or adhesives. Under Chiku'unsai IV's skilled craftsmanship, bamboo is more than a functional tool: it is modern art, a unifying symbol of Japanese culture. His sculptures revere traditional workmanship, while conveying important contemporary messages - the codependence of nature and man, and the importance of protecting our environment. Part autobiography, part introduction to the craft, this monograph follows Chiku'unsai IV's growth from a child marveling at his grandfather's mastery of bamboo, to a maestro in his own right. Bamboo weaves his past to his present, providing a sturdy foundation on which his art continues to build. "Love bamboos, live with bamboos," says Chiku'unsai IV. As this book demonstrates, he has done precisely that.
