A graphic novel titled "The Dialogues," where both the graphics and the dialogues are poorly done, is a curious thing. But let's not be petty. The book isn't about graphics or dialogue, it's a suggestion by example that normal people should have casual conversations about science.

The conversationalists are men, women, children, experts, and amateur science buffs. The topics of their conversations range from the science of cooking to the multiverse and string theory. The graphic form is especially suited for physics; one drawing can show what it would take many words to explain. In the first conversation, a couple meets at a costume party; they speculate about a scientist with superhero powers who doesn't use them to fight crime but to do more science, and they discuss what it means to have a “beautiful equation” in science. Their conversation spills into another chapter (“Hold on, you haven't told me about light yet”), and in a third chapter they exchange phone numbers. Another couple meets on a train and discusses immortality, time, black holes, and religion. A brother and sister experiment with a grain of rice. Two women sit in a sunny courtyard and discuss the multiverse, quantum gravity, and the anthropic principle. After reading these conversations, we are ready to start our own.

The Book of Dialogue is an invaluable resource for writers and students of narrative seeking to master the art of effective dialogue. The book will teach you how to use dialogue to lay the groundwork for events in a story, to balance dialogue with other story elements, to dramatize events through dialogue, and to strategically break up dialogue with other vital elements of your story in order to capture and hold a reader's or viewer's interest in the overall arc of the narrative. Writers will find Turco's classic an essential reference for crafting dialogue. Using dialogue to teach dialogue, Turco's chapters focus on narration, diction, speech, and genre dialogue. Through the Socratic dialogue method—invented by Plato in his dialogues outlining the teachings of Socrates—Turco provides an effective tool to teach effective discourse. He notes, "Plato wrote lies in order to tell the truth. That's what a fiction writer does and has always done." Now it's your turn.

Written by Gold Medallion nominee Randy Newman, this captivating book allows readers to learn new evangelistic skills by eavesdropping on important conversations that grapple with hot-button issues.

Dialogue was written after reading Seth, the Conversations with God books, Edgar Cayce, Kryon, and listening to Esther Hicks. The very deepest questions concerning the origin of the universe, time, and consciousness were never answered to my satisfaction. So I decided to ask them. Astonishingly, just like Neale Donald Walsch, I too began to receive answers! These answers came almost instantaneously in what I call a "packet." These packets were like information on a data network, except that they were always accompanied by a feeling of profound certainty and well-being. I might have to spend 20 or 30 minutes deciphering the information in these packets, and typing the out. Then I'd read them over and sometimes I couldn't believe what I had written. This book contains answers to questions like What is the origin of the universe? What is consciousness? What is the Higher Self? What is Memory? What is Time? as well as answers to questions of politics, sex, the law of attraction, and crop circles.

This book is based on two basic assumptions. Firstly, dialogue, conversation, reflection and challenge are fundamental aspects of effective learning and developing personal understanding. Secondly school leaders do not have sufficient time to engage in these activities - they are always the first casualties. Designed to provide stimulus materials for school leaders to support their personal development, *Leadership Dialogues* encourages personal reflection, dialogue with a coach or mentor and conversations in leadership teams. It includes short think pieces, case studies, diagnostic reviews, selected quotations on a particular theme and questions for discussion and reflection.

Suppose you could ask God any question and get an answer. What would it be? Young people all over the world have been asking those questions. So Neale Donald Walsch, author of the internationally bestselling *Conversations with God* series had another conversation. *Conversations with God for Teens* is a simple, clear, straight-to-the-point dialogue that answers teens questions about God, money, sex, love, and more. *Conversations with God for Teens* reads like a rap session at a church youth group, where teenagers discuss everything they ever wanted to know about life but were too afraid to ask God. Walsch acts as the verbal conduit, showing teenagers how easy it is to converse with the divine. When Claudia, age 16, from Perth, Australia, asks, "Why can't I just have sex with everybody? What's the big deal?", the answer God offers her is: "Nothing you do will ever be okay with everybody. 'Everybody' is a large word. The real question is can you have sex and have it be okay with you?" There's no doubt that the casual question-and-answer format will help make God feel welcoming and accessible to teens. *Conversations with God for Teens* is the perfect gift purchase for parents, grandparents, and anyone else who wants to provide accessible spiritual content for the teen(s) in their lives.
