The Missing Girl is an accomplished debut which I really enjoyed for the author ' s deft handling of the dual timelines and its multi-layered story. The author lays down plenty of tempting false trails for the reader to follow and although I (sort of) guessed one of the key twists in the book before it was revealed it didn ' t spoil my enjoyment of what followed.

The arrest and trial of Robert Pickton—a man charged with murdering 26 prostitutes in Vancouver ' s Downtown Eastside—is at the center of this study of the behavior of police officers and news reporters when a crime involves poor or marginalized victims. The analysis asks What made it possible for so many women to simply disappear from a densely populated urban neighborhood without provoking an aggressive response by the state? For answers, the book compares the Vancouver murders to the disappearance of a single teenager in Toronto—a tragic but isolated incident—that marshaled vigorous police work and

**MISSING** – Have you seen this girl? Nineteen-year-old Leila Hawkins was last seen on 24 June, 1994, when she left her parents' anniversary party early and ran into the stormy night wearing her twin sister Stella's long red coat. She was never seen again. I wrap my arms around the tree trunk, pressing my cheek against it until the bark digs in and the missing poster is finally secured. I try not to look at the photograph on it. At the features so similar to mine. Perhaps this will be the year someone comes forward. Were crucial mistakes made by detectives from the very beginning? Could the pressure of living two lives have led my sister to run away – or even end it? Or did someone in her tight circle of friends and family have reason to want her gone? Someone out there must know something. But the last thing I ever expect is a direct response from the person who took Leila. Wracked with guilt and completely alone in the world without the other half of me, I have no choice but to agree to his strange request: private, intimate details of my life in return for answers. As the final moments of my sister's life play out before me, I feel closer to her than I ever dreamed I'd be again. So close, it could almost be happening to me. But when I finally realise who is behind this terrifying tragedy, will I make it out alive? From the bestselling author of *The Perfect Friend*, this absolutely gripping psychological thriller will keep you up all night and leave you sleeping with the light on. If you loved *Gone Girl*, *The Girl on the Train* and *The Wife Between Us* this book is for you! Readers love Barbara

A REESE'S BOOK CLUB PICK "A wise novel of love and grief, roots and branches, displacement and home, faith and belief. Balm for our bruised times." -David Mitchell, author of Utopia Avenue A rich, magical new novel on belonging and identity, love and trauma, nature and renewal, from the Booker-shortlisted author of 10 Minutes 38 Seconds in This Strange World. Two teenagers, a Greek Cypriot and a Turkish Cypriot, meet at a taverna on the island they both call home. In the taverna, hidden beneath garlands of garlic, chili peppers and creeping honeysuckle, Kostas and Defne grow in their forbidden love for each other. A fig tree stretches through a cavity in the roof, and this tree bears witness to their hushed, happy meetings and eventually, to their silent, surreptitious departures. The tree is there when war breaks out, when the capital is reduced to ashes and rubble, and when the teenagers vanish. Decades later, Kostas returns. He is a botanist looking for native species, but really, he's searching for lost love. Years later a *Ficus carica* grows in the back garden of a house in London where Ada Kazantzakis lives. This tree is her only connection to an island she has never visited--- her only connection to her family's troubled history and her complex identity as she seeks to untangle years of secrets to find her place in the world. A moving, beautifully written, and delicately constructed story of love, division, transcendence, history, and eco-consciousness, *The Island of Missing Trees* is Elif Shafak's best work yet.

"Oh my God, we found a dead body." The man's voice, calling from a mountain trail in Cleveland National Forest, was frantic. "Please hurry. I'm so scared. It's a little kid." When police arrived, they were met by a horrific sight. The girl was naked and had been positioned in such a way that detectives believed the murderer had seen his kill as some kind of a trophy. As if he were showing off his "work". The little kid was Samantha Runnion, a five-year-old girl who had been abducted while playing in her parents' garden the day

before. Samantha is just one of too many American kids who disappear. Almost half a million children are reported missing every year. And all across America parents are searching for their missing children or if the worst case scenario has come to pass the person who killed them. Momo of the Missing investigates ten abduction cases. Through personal and heartbreaking interviews with the victims, it describes how parents maintain their hopes of one day finding their children some of whom were taken by a stranger, a family member, or human traffickers. And two survivors tell what it is like to be held captive. Momo of the Missing explores the principal types of abductions, and not of least importance who's most likely to become a victim of the epidemic of missing children. Finally the book describes how abductions can be prevented.

In her gripping debut novel, Lucy Atkins takes us on one woman's journey to the beautiful and rugged Pacific Northwest to discover the dark secrets of her family's past so that she can understand and accept herself. Kal McKenzie was never close to her mother Elena, whose coldness towards her spoiled any chance of a good relationship. When Elena dies of cancer, Kal feels forlorn: how do you mourn a mother who, inexplicably, just didn't seem to love you? While clearing out Elena's art studio, Kal finds a drawer packed with postcards, each bearing an identical one-line message from a Canadian gallery owner named Susannah Gillespie: "Thinking of you." Who is this woman and might she hold the key to her ruined relationship with her mother? Conflicted by her grief and shaken up from recently seeing a covetous text from an old girlfriend on her husband's cell phone, Kal impulsively sets off with her toddler Finn to Susannah's home on a remote British Columbian island, a place of killer whales and storms. Soon Kal quickly realizes she has made a big mistake. The striking and enigmatic Susannah will only share a few scraps of information about Elena. Kal discovers that her mother was a pioneering orca researcher-an activist trying to save the powerful and dangerous creatures.
