The first book-length study of the outsider designations that early Christians used and what they reveal about the movement's identity, self-understanding and character.

In the 1994 Rwanda genocide, around 1 million people were brutally murdered in just thirteen weeks. This book offers an in-depth study of posttraumatic growth in the testimonies of the men and women who survived, highlighting the ways in which they were able to build a new, and often enhanced, way of life. In so doing, Caroline Williamson Sinalo advocates a new reading of trauma: one that recognises not just the negative, but also the positive responses to traumatic experiences. Through an analysis of testimonies recorded in Kinyarwanda by the Genocide Archive of Rwanda, the book focuses particularly on the relationship between posttraumatic growth and gender and examines it within the wider frames of colonialism and traditional cultural practices. Offering a striking alternative to dominant paradigms on trauma, the book reveals that, notwithstanding the countless tales of horror, pain, and loss in Rwanda, there are also stories of strength, recovery, and growth.

How did Jesus teach the Greatest Commandment to his disciples? In his latest book *Reckless Love*, author and Pastor Tom Berlin writes that Jesus taught them to love neighbor first as a way to more deeply love God. In his exploration of Jesus' teaching and travels with his disciples, Berlin suggests that Jesus teaches us how to love God with heart, soul, mind, and strength by showing us how to love our neighbor. While many hope to learn to be better family, friends, leaders, neighbors but finding a deeper relationship with God, what if becoming a better neighbor leads you to that deeper love of God. In *Reckless Love*, you will see the ways Jesus' care for others disrupted the way his disciples thought and acted so deeply that they learned love God fully and join Jesus mission to share the good news unambiguously. In so doing, you will have the opportunity to consider your life, and learn how loving the people around you will completely renew your faith and give you a new experience of loving God. The Leader Guide contains everything needed to guide a group through the six-week study including session plans, activities, and discussion questions, as well as multiple format options.

The first Europeans to arrive in North America's various regions relied on Native women to help them navigate unfamiliar customs and places. This study of three well-known and legendary female cultural

intermediaries, Malinche, Pocahontas, and Sacagawea, examines their initial contact with Euro-Americans, their negotiation of multinational frontiers, and their symbolic representation over time. Well before their first contact with Europeans or Anglo-Americans, the three women's societies of origin—the Aztecs of Central Mexico (Malinche), the Powhatans of the mid-Atlantic coast (Pocahontas), and the Shoshones of the northern Rocky Mountains (Sacagawea)—were already dealing with complex ethnic tensions and social change. Using wit and diplomacy learned in their Native cultures and often assigned to women, all three individuals hoped to benefit their own communities by engaging with the new arrivals. But as historian Rebecca Kay Jager points out, Europeans and white Americans misunderstood female expertise in diplomacy and interpreted indigenous women's cooperation as proof of their attraction to Euro-American men and culture. This confusion has created a historical misrepresentation of Malinche, Pocahontas, and Sacagawea as gracious Indian princesses, giving far too little credit to their skills as intermediaries. Examining their initial contact with Europeans and their work on multinational frontiers, Jager removes these three famous icons from the realm of mythology and cultural fantasy and situates each woman's behavior in her own cultural context. Drawing on history, anthropology, ethnohistory, and oral tradition, Jager demonstrates their shrewd use of diplomacy and fulfillment of social roles and responsibilities in pursuit of their communities' future advantage. Jager then goes on to delineate the symbolic roles that Malinche, Pocahontas, and Sacagawea came to play in national creation stories. Mexico and the United States have molded their legends to justify European colonization and condemn it, to explain Indian defeat and celebrate indigenous prehistory. After hundreds of years, Malinche, Pocahontas and Sacagawea are still relevant. They are the symbolic mothers of the Americas, but more than that, they fulfilled crucial roles in times of pivotal and enduring historical change. Understanding their stories brings us closer to understanding our own histories.

The history of Europe as a continent of refugees European history has been permeated with refugees. The Outsiders chronicles every major refugee movement since 1492, when the Catholic rulers of Spain set in motion the first mass flight and expulsion in modern European history. Philipp Ther provides needed perspective on today's "refugee crisis," demonstrating how Europe has taken in far greater numbers of refugees in earlier periods of its history, in wartime as well as peacetime. His sweeping narrative crosses the Mediterranean and the Atlantic, taking readers from the Middle East to the shores of America. In this compelling book, Ther examines the major causes of mass flight, from religious intolerance and ethnic cleansing to political persecution and war. He describes the perils and traumas of flight and explains why refugees and asylum seekers have been welcomed in some periods—such as during the Cold War—and why they are rejected in times such as our own. He also examines the afterlives of the refugees in the receiving countries, which almost always benefited from admitting them. Tracing the lengthy routes of the refugees, he reconceptualizes Europe as a unit of geography and historiography. Turning to the history of refugees in the United States, Ther also discusses the anti-refugee politics of the Trump administration, explaining why they are un-American and bad for the country. By setting mass flight against fifteen biographical case studies, and drawing on his subjects' experiences, itineraries, and personal convictions, Ther puts a human face on a global phenomenon that concerns all of us.
