The classic, bestselling account of the infamous Kray twins, now a major film, *LEGEND*, starring Tom Hardy. Reggie and Ronald Kray ruled London's gangland during the 1960s with a ruthlessness and viciousness that shocks even now. Building an empire of organised crime such as nobody has done before or since, the brothers swindled, intimidated, terrorised, extorted and brutally murdered. John Pearson explores the strange relationship that bound the twins together, and charts their gruesome career to their downfall and imprisonment for life in 1969. Now expanded to include further extraordinary revelations, including the unusual alliance between the Kray twins and Lord Boothby - the Tory peer who won £40,000 in a libel settlement when he denied allegation of his association with the Krays - *The Profession of Violence* is a truly classic work. John Pearson is also the author of *All the Money in the World* (previously titled *Painfully Rich*), now a major motion picture directed by Ridley Scott film and starring Michelle Williams, Mark Wahlberg and Christopher Plumber (nominated for the Oscar for Best Supporting Actor).

The Sunday Times Top Ten Bestseller. The Kray twins were Britain's most notorious gangsters. Ruling London's underworld for more than a decade, as gang lords they were among the most powerful and feared men in the city. Photographed by David Bailey and even interviewed for television, they became celebrities in their own right and are infamous to this day. Ronnie and Reg's reign of terror ended on 8 March 1969 when they were sentenced to life with the recommendation that they serve at least thirty years. Ronnie ended his days in Broadmoor - his raging insanity only controlled by massive doses of drugs. Reg served almost three decades in some of Britain's toughest jails before being released on compassionate grounds in August 2000. He died of cancer eight months later. Compiled from a series of interviews with Fred Dinenage from behind prison walls, *Our Story* is the classic account that explodes the myths surrounding the Kray twins. In it, the twins set the record straight. In their own words they tell the full story of their brutal career of crime and their years behind bars. With an introduction from Fred Dinenage, this compelling, disturbing and highly readable book is the definitive story of two legendary criminals.

“Engaging. . . a remarkably candid account. . . Succeeding as a centrist in public life these days can be an almost impossible task. But centrism in law enforcement may be the most delicate challenge of all. Bratton’s ability to practice it was a startling phenomenon.”
-New York Times Book Review The epic, transformative career of Bill Bratton, legendary police commissioner and police reformer, in Boston, Los Angeles, and New York When Bill Bratton became a Boston street cop after his return from serving in Vietnam, he was dismayed by the corrupt old guard, and it is fair to say the old guard was dismayed by him, too. But his success fighting crime could not be denied. Propelled by extraordinary results, Bratton had a dazzling rise, and ultimately a dazzling career, becoming the most famous police commissioner of modern times. The Profession is the story of that career in full. Everywhere he went, Bratton slashed crime rates and professionalized the vocation of the cop. He and his team created the revolutionary program CompStat, the Big Bang of modern data-driven policing. But his career has not been without controversy, and central to the reckoning of The Profession is the fundamental crisis of relations between the Black community and law enforcement; a crisis he now believes has been inflamed by the unforeseen consequences of some well-intentioned policies. Building trust between a police force and the community it is sworn to protect is in many ways, Bratton argues,

the first task--without genuine trust in law enforcement to do what is right, little else is possible. The Profession is both a searching examination of the path of policing over the past fifty years, for good and also for ill, and a master class in transformative leadership. Bill Bratton was never brought into a police department to maintain the status quo; wherever he went--from Boston in the '80s to the New York Police Department in the '90s to Los Angeles after the beating of Rodney King to New York again in the era of unchecked stop-and-frisk--root-and-branch reinvention was the order of the day and he met the challenge. There are few other positions on Earth in which life-and-death stakes combine with intense public scrutiny and turbulent political crosswinds as they do for the police chief of a major American city, even more so after counterterrorism entered the mix in the twenty-first century. Now more than ever, when the role of the police in society is under a microscope like never before, Bill Bratton's authority on the subject of improving law enforcement is profoundly useful. A riveting combination of cop stories and community involvement, The Profession presents not only a fascinating and colorful life at the heights of law-enforcement leadership, but the vision for the future of American policing that we sorely need.

Twins Ron and Reg Kray were without doubt the most powerful, violent and deadly gangsters that London has ever known. They ran protection rackets, clubs and casinos, as well as fraudulent 'long firms'. They blackmailed, intimidated and killed - for many years with impunity thanks to their powerful cronies in the Establishment. Working with all five main Mafia families in New York, they were expanding their business worldwide when they were imprisoned for murder in 1968. Featuring revealing new material, *The Krays: A Violent Business* is the story of their lives - and of the secrets and scandals the British government still doesn't want you to know about.

The definitive account of the Krays' world, their criminal activities, and two lives spent running the Firm. Until now books on the Krays have been subjective and incomplete--memoirs by police officers and witnesses, or whitewashing accounts and affectionate recollections by friends and family. This will be the first wholly objective look at how the twins came to power, fell, and, at least in the public eye, rose again. The book will draw together the many often conflicting versions of events--at least five reasons have been offered for the death of George Cornell--and separate fact from fiction. It will include many stories never previously disclosed, such as: - Charlie

Kray's real position with his brothers. In recent years there have been allegations that he was both a serial molester of women and a police informer, both far from the general picture of a hail-fellow-well-met man manipulated by his younger brothers. - The Krays' bribing and intimidation of witnesses and their use of solicitors and the clergy to set up potential defences against police action. - Just how many people did they kill, or were killed on their behalf? The book will examine claims that they killed up to 30, including an analysis of their possible involvement in the deaths of lawyer David Jacobs and former world champion boxer Freddie Mills.

In the 60s, Ronnie and Reggie Kray were Britain's most notorious gangsters. With violence and intimidation they were the kings of London. They sipped champagne with celebrities and rubbed shoulders with politicians. They were untouchable. Until they weren't. After an undercover operation, the Kray twins were found guilty of murder and were sentenced to life in prison. They were just 35 years old. But once inside, the twins were determined to make their stay truly historic. The Twins began earning more money inside than they ever did on the streets. They sold branded t-shirts and memorabilia and they allowed books and films to be published about their lives. They didn't stop. Whilst locked up, their mother died as did their brother

Charlie, and their associates and friends all fell away. But while Britain changed as a nation, the brothers continued to operate as the gangsters they once were. Their violence ingrained so deep that they couldn't leave it behind. *The Krays: The Prison Years* explores the fascinating and largely untold story of the Kray twins following their imprisonment.

“One of the few world intellectuals on whom we may rely to make sense out of our existential confusion.”—Nadine Gordimer In this sweeping philosophical work, Amartya Sen proposes that the murderous violence that has riven our society is driven as much by confusion as by inescapable hatred. Challenging the reductionist division of people by race, religion, and class, Sen presents an inspiring vision of a world that can be made to move toward peace as firmly as it has spiraled in recent years toward brutality and war.

Demoralized: Why Teachers Leave the Profession They Love and How They Can Stay offers a timely analysis of professional dissatisfaction that challenges the common explanation of burnout. Featuring the voices of educators, the book offers concrete lessons for practitioners, school leaders, and policy makers on how to think more strategically to retain experienced teachers and make a difference in the lives of

students. Based on ten years of research and interviews with practitioners across the United States, the book theorizes the existence of a “moral center” that can be pivotal in guiding teacher actions and expectations on the job. Education philosopher Doris Santoro argues that demoralization offers a more precise diagnosis that is born out of ongoing value conflicts with pedagogical policies, reform mandates, and school practices. Demoralized reveals that this condition is reversible when educators are able to tap into authentic professional communities and shows that individuals can help themselves. Detailed stories from veteran educators are included to illustrate the variety of contexts in which demoralization can occur. Based on these insights, Santoro offers an array of recommendations and promising strategies for how school leaders, union leaders, teacher groups, and individual practitioners can enact and support “re-moralization” by working to change the conditions leading to demoralization.
