The second thrilling account of #1 New York Times bestselling author Clive Cussler's real-life search for lost ships, planes, and other marvels that changed history. For decades, Clive Cussler's real-life NUMA®, the National Underwater and Marine Agency, has scoured rivers and seas in search of lost ships of historic significance. His teams have been inundated by tidal waves and beset by obstacles—both

human and natural—but the results, and the stories behind them, have been dramatic. In this follow-up to their bestselling first account, *The Sea Hunters*, Cussler and colleague Craig Dirgo provide another extraordinary narrative of their true seagoing—and land—adventures, including their searches for the famous ghost ship *Mary Celeste*, found floating off the Azores in 1874 with no one on board; the *Carpathia*, the ship that rescued the Titanic survivors and was itself lost to U-boats six years later; and *L'Oiseau Blanc*, the airplane that almost beat *The Spirit of St. Louis* across the Atlantic before disappearing in the Maine woods. All these, plus steamboats, ironclads, a seventeenth century flagship, a certain famous PT boat, and even a dirigible, are tantalizing targets as Cussler proves again that truth can be “at least as fun, and sometimes stranger, than fiction” (*Men's Journal*).

Collects accounts of the underwater discoveries made by the author and his team of volunteers dedicated to the exploration of historic wrecks, including the *Lexington* and the *Arkansas*.

Clive Cussler's New York Times bestselling *Blue Gold*, now available in ebook, is a heart-pounding thriller in the NUMA adventure series. Kurt Austin navigates the Amazon jungle in search of a legend that could change the path of science—but secretive powers will do anything to stop him. From deep within the Venezuelan rain forest emanates the legend of a white goddess and a mysterious tribe with startling technical accomplishments. Few believe the tribe exists—and even fewer suspect its deity may hold knowledge that can change the course of history. For National Underwater & Marine Agency crew leader Kurt Austin, an investigation into the sudden deaths of rare whales leads him to the Mexican coast, where someone tries to put him and his mini-sub permanently out of commission. Meanwhile, in South America's lush hills, a specially assigned NUMA crew turns up the white-goddess legend—and a murderous cadre of bio-pirates intent on stealing medicinal secrets worth millions. Soon Austin and his crew realize they're working the opposite ends of the same grand scheme. A billionaire California tycoon is poised to rise to power by monopolizing the earth's vastly depleted freshwater reserves and ultimately dominate the world. Austin has a hunch Venezuela's mythical tribal goddess has some real roots in science, and may be the key to locating a secret formula that could turn vast amounts of seawater into fresh. But with each step into the bush, he and his NUMA team feel like fish out of water—and must fight a deadly, twisting trail of enemies through a dense jungle of treachery, blackmail, and murder.

Oceanic explorers Dirk Pitt and Al Giordino find intrigue, adventure, and peril while collecting clues to the mysterious treasure of Xanadu, the famed capital of Kublai Khan's empire. When Dirk Pitt is nearly killed rescuing an oil survey team from a freak wave on Russia's Lake Baikal, it appears a simple act of nature. But when the survey team is abducted and Pitt's research vessel nearly sunk, it becomes clear this is no run of bad luck, but the influence of something, or someone, more sinister. In fact, Pitt and the NUMA crew have inadvertently stepped between a Mongolian tycoon and his plans to corner the global oil market, beginning with covert negotiations in China. To ensure the deal goes through, this mysterious businessman will encourage ever-escalating acts of sabotage and violence. Pitt and Giordino soon learn the magnate's fury and his power both stem from the same source: a dark secret about Genghis Khan, the greatest conqueror the world has ever known. To Pitt and Giordino the famed Khan's empire is nearly the stuff of legend and his tomb a forgotten mystery. But the Khan's legacy is very real. And it's the treasure of his grandson Kublai Khan that holds the key to stopping this modern-day oil baron from restoring the conquests of his ancestors. That is, if Pitt and Giordino get there first....
