Francis shares some of his favorite ways to keep the dining lively including tarot card readings at table and karaoke following the meal. He also recommends divvying out the responsibilities among the ...

Now in a fully corrected edition, one of the true spiritual classics of the twentieth century. Published for the first time with an index and Cardinal Hans Urs von Balthasar's afterword, this new English publication of Meditations on the Tarot is the landmark edition of one of the most important works of esoteric Christianity. Written anonymously and published posthumously, as was the author's wish, the intention of this work is for the reader to find a relationship with the author in the spiritual dimensions of existence. The author wanted not to be thought of as a personality who lived from 1900 to 1973, but as a friend who is communicating with us from beyond the boundaries of ordinary life. Using the 22 major arcana of the tarot deck as a means to explore some of humanity's most penetrating spiritual questions, Meditations on the Tarot has attracted an unprecedented range of praise from across the spiritual spectrum.

Visionary author Patricia Cori and metaphysical artist Alysa Bartha present a true tool of transformation, empowerment, and awakening—a must-have for serious Tarot readers, spiritual seekers, and starseeds everywhere. With The Sirian Starseed Tarot, they bring a new consciousness to the tried and tested realm of the Tarot. Weaving together the world-renowned teachings delivered through Cori's best-selling books with Tarot traditions of the past, they bring a new interpretation of the exquisite journey of self-discovery hidden in the Tarot's archetypal symbols and meanings. Honoring the core structure of the time-proven Tarot and the wisdom of what has for centuries been portrayed in its pantheon, Cori and Bartha bring to light new perspectives upon its theater of characters—and the energies they represent. With 78 gorgeously designed, full-color Tarot cards—22 Major Arcana, 16 “court cards,” and 40 numbered cards (10 for each of four suits)—and a 96-page booklet explaining each card, this amazing deck allows card readers and their clients to work through the Tarot fundamentals on a higher level, helping them to achieve a multidimensional perspective on the meaning of their own lives and in relation to the immense changes that are occurring in our global societies and in the Earth's own energy grids. A work of creative inspiration and devotion to spirit, The Sirian Starseed Tarot addresses the growing fascination of many souls who are searching to understand their starseed origins and their purpose in the greater scheme of our cosmic evolution.

How our collective intelligence has helped us to evolve and prosper Humans are a puzzling species. On the one hand, we struggle to survive on our own in the wild, often failing to overcome even basic challenges, like obtaining food, building shelters, or avoiding predators. On the other hand, human groups have produced ingenious technologies, sophisticated languages, and complex institutions that have permitted us to successfully expand into a vast range of diverse environments. What has enabled us to dominate the globe, more than any other species, while remaining virtually helpless as lone individuals? This book shows that the secret of our success lies not in our innate intelligence, but in our collective brains—on the ability of human groups to socially interconnect and learn from one another over generations. Drawing insights from lost European explorers, clever chimpanzees, mobile hunter-gatherers, neuroscientific findings, ancient bones, and the human genome, Joseph Henrich demonstrates how our collective brains have propelled our species' genetic evolution and shaped our biology. Our early capacities for learning from others produced many cultural innovations, such as fire, cooking, water containers, plant knowledge, and projectile weapons, which in turn drove the expansion of our brains and altered our physiology, anatomy, and psychology in crucial ways. Later on, some collective brains generated and recombined powerful concepts, such as the lever, wheel, screw, and writing, while also creating the institutions that continue to alter our motivations and perceptions. Henrich shows how our genetics and biology are inextricably interwoven with cultural evolution, and how culture-gene interactions launched our species on an extraordinary evolutionary trajectory. Tracking clues from our ancient past to the present, The Secret of Our Success explores how the evolution of both our cultural and social natures produce a collective intelligence that explains both our species' immense success and the origins of human uniqueness.

Originally published in 1928, The Secret Teachings of All Ages is Manly P. Hall's celebrated 20th century tome, where readers delight in discussions about ancient symbolism, rituals, and mythology. Manly P. Hall was a Canadian Author of over 150 published works, the best known of which are Initiates of the Flame, The Story of Healing, The Divine Art, Aliens Magic and Sorcery The Secret Teachings of All Ages, and An Encyclopedic Outline of Masonic, Hermetic, Qabbalistic Rosierucian Symbolical Philosophy. Symbolism is the language of the Mysteries; in fact it is the language not only of mysticism and philosophy but of all Nature, for every law and power active in universal procedure is manifested to the limited sense perceptions of man through the medium of symbol. Every form existing in the diversified sphere of being is symbolic of the divine activity by which it is produced. By symbols men have ever sought to communicate to each other those thoughts which transcend the limitations of language. This book is often hailed as an encyclopedia for all things hidden, ancient, and arcane, and it explores a vast array of topics, from secret societies and the Zodiac to Mystic Christianity and William Shakespeare's identity. Despite some of the outdated and controversial ideas it poses now in the 21st century, it continues to fascinate students of the cryptic and mysterious.

In 1105, six years after the first crusaders from Europe conquered Jerusalem, a Damascene Muslim jurist named 'Ali ibn Tahir al-Sulami (d. 1106) publicly dictated an extended call to the military jihad (holy war) against the European invaders. Entitled Kitab al-Jihad (The Book of the Jihad), al-Sulami's work both summoned his Muslim brethren to the jihad and instructed them in the manner in which it ought to be conducted, covering topics as diverse as who should fight and be fought, treatment of prisoners and plunder, and the need for participants to fight their own inner sinfulness before turning their efforts against the enemy. Al-Sulami's text is vital for a complete understanding of the Muslim reaction to the crusades, providing the reader with the first contemporary record of Muslim preaching against the crusaders. However, until recently only a small part of the text has been studied by modern scholars, as it has remained for the most part an unedited manuscript. In this book Niall Christie provides a complete edition and the first full English translation of the extant sections (parts 2, 8, 9 and 12) of the manuscript of al-Sulami's work, making it fully available to modern readers for the first time. These are accompanied by an introductory study exploring the techniques that the author uses to motivate his audience, the precedents that influenced his work, and possible directions for future study of the text. In addition, an appendix provides translations of jihad sermons by Ibn Nubata al-Fariqi (d. 985), a preacher from Asia Minor whose rhetorical style was highly influential in the development of al-Sulami's work.

Henrik Bogdan and Martin P. Starr offer the first comprehensive examination of one of the twentieth century's most distinctive occult iconoclasts, Aleister Crowley (1875-1947), one of the most influential thinkers in contemporary western esotericism.

An extraordinary new novel from Jasmine Warga, Newbery Honor-winning author of Other Words for Home, about loss and healing—and how friendship can be magical. Cora hasn't spoken to her best friend, Quinn, in a year. Despite living next door to each other, they exist in separate worlds of grief. Cora is still grappling with the death of her beloved sister in a school shooting, and Quinn is carrying the guilt of what her brother did. On the day of Cora's twelfth birthday, Quinn leaves a box on her doorstep with a note. She has decided that the only way to fix things is to go back in time to the moment before her brother changed all their lives forever—and stop him. In spite of herself, Cora wants to believe. And so the two former friends begin working together to open a wormhole in the fabric of the universe. But as they attempt to unravel the mysteries of time travel to save their siblings, they learn that the magic of their friendship may actually be the key to saving themselves. The Shape of Thunder is a deeply moving story, told with exceptional grace, about friendship and loss—and how believing in impossible things can help us heal.

Julie and the Phantoms meets Amina's Voice! This is a sweet, powerful, and joyous novel about a Muslim girl who finds her voice on her own terms... by joining her school's most popular band. This book is perfect for fans of The First Rule of Punk or Save Me a Seat. Twelve-year-old Nimra Sharif has spent her whole life in Islamic school, but now it's time to go to "real school." Nimra's nervous, but as long as she has Jenna, her best friend who already goes to the public school, she figures she can take on just about anything. Unfortunately, middle school is hard. The teachers are mean, the schedule is confusing, and Jenna starts giving hijab-wearing Nimra the cold shoulder around the other kids. Desperate to fit in and get back in Jenna's good graces, Nimra accepts an unlikely invitation to join the school's popular 8th grade boy band, Barakah Beats. The only problem is, Nimra was taught that music isn't allowed in Islam, and she knows her parents would be disappointed if they found out. So she devises a simple plan: join the band, win Jenna back, then quietly drop out before her parents find out. But dropping out of the band proves harder than expected. Not only is her plan to get Jenna back working, but Nimra really likes hanging out with the band—they value her contributions and respect how important her faith is to her. Then Barakah Beats signs up for a talent show to benefit refugees, and Nimra's lies start to unravel. With the show only a few weeks away and Jenna's friendship hanging in the balance, Nimra has to decide whether to betray her bandmates—or herself.
