The Tropical Asian House explores how cultural influences, tradition, religion, technology, and the forces of globalization fuse together to produce a contemporary tropical architecture.

With rich photography and insightful commentary, this Thai architecture and interior design book showcases some of the finest modern masterpieces in Southeast Asia. A tremendous body of sophisticated and sensitively designed architectural work has been produced in Thailand in the first decade of the 21st century. The 25 houses in The Modern Thai House illustrate the radical new ideas coming from a dynamic younger generation of architects who are producing work comparable with and sometimes even surpassing the very best architecture in the world. Most of these architects were trained in the U.S. or U.K. and reflect not only American and European sensibilities but also affinities with their contemporaries in Asia—including Japan, China, Singapore, and Bali—all hotbeds for innovation in modern design. The houses in this book are readily accessible from Bangkok, Phuket, and Chiangmai. They reflect a wide variety of concerns and solutions, such as: sustainability; responses to climate; strategies for cooling with minimal electricity; openness versus security in a large metropolis such as Bangkok; cultural sensitivity and responsiveness, as evidenced in a "three-generation house," built for a society in which the extended family is still prevalent; and cultural memory, as in the use of elements such as pilings, verandahs, and steeply pitched roofs with large overhangs that echo traditional Thai designs. Nurtured by an increasingly knowledgeable and wealthy clientele, modern architecture in Thailand is emerging with a variety of innovative architectural expressions.

Tropical Asian Style showcases contemporary residences throughout Southeast Asia—from Chiang Mai to Bali, Kuala Lumpur to Java. This contemporary Asian design book contains over 400 color photos by world-renowned photographer Luca Invernizzi Tettoni. Each home is designed to achieve perfect harmony with its tropical surroundings. In this book, the essential design elements of these homes are presented thematically, to show the various ways in which the harmony and beauty is achieved. Well-known architects, designers and authorities on Asia's cultural heritage provide insightful views on the houses and their design elements. A final section on tropical decorating provides helpful tips on selecting Asian fabrics, furniture and artifacts.

From three architecture industry experts comes a book nearly as sophisticated as the luxury homes profiled within. Inspired by new architectural agendas, such as rethinking congregational spaces and promoting a minimalist lifestyle, the luxury homes from across of Southeast Asia collected in this book dazzle with a bold new perspective on modern architecture. The 400 color photographs inside place you in beachfront scenes where the waves crash only inches from your feet; where you laze dreamily, jungle-side, in dazzling hotels; and finally, you come face to face with the most innovative concepts in all of Asia. With an additional 200 architectural plans to further inspire modern architecture aficionados, New Directions in Tropical Asian Architecture presents breathtaking specimens from throughout Southeast Asia, including: India Indonesia Malaysia Singapore Sri Lanka Thailand Let the luxury homes and residences in this book wow you, and open your eyes to a side of Southeast Asian architecture that you've never seen before.

In the 21st century, Bangkok, Jakarta and Manila will be among the 20 mega-cities in the world, each with a population of over 10 million. Now more than ever, urban houses in Asia need to meet the challenges of space constraints, the high cost of land, heat and humidity, pollution and privacy. The urban house must do more with less and show how small can be beautiful.

Tropical House celebrates a growing trend toward stylish globalization in interior design. More than 25 stunning houses and condos in and around Manila, the Philippines, evoke a distinctive tropical-modern-fusion style that is gaining popularity around the world. All these fine residences comprise a synthesis of East-West trends and contemporary furnishings—as Filipino designers merge sleek modernist furniture with local designers' "soulful creations" in natural hardwoods and other tropical materials. Over 250 full-color photographs of outstanding Filipino residences will inspire readers with their diverse and contemporary looks. From vintage glamour to classic modern with bold artful accents, to the clean, glam look known as "contemporary chic," this design book showcases the myriad tastes of the Philippines. The selection features modernist designs referred to as Zen or Minimalist; admires the modern Global Eclectics, those well-traveled collectors of beautiful objects from East and West; and celebrates the individualists who mix European furniture with acutely elegant accents from local designers or who frame edgy artworks by Filipino artists with iconic design inspired by Japanese architecture. Such are the global interiors and architecture of today's tropical Asia.

Raul A. Barreneche has searched the globe including such spectacular locales as Hawaii, St. Barts, Malaysia, Singapore, Indonesia, Australia, and India to bring together a collection of luxurious modern homes designed by such luminaries as Isay Weinfeld, Marcio Kogan, Kerry Hill, and Patrick Jouin and Sanjit Manku, among many others.

With over 350 beautiful photographs and insightful commentary, Island Style reveals the lush, tropical architecture and interior design of Indonesia. A tropical island inspires thoughts of warm breezes, crystal clear water and white beaches stretching as far as the eye can see. But tropical islands are more than just gorgeous beaches, particularly in the vast archipelago of Indonesia, with its diverse peoples, cultures and traditions stretching from Java to Bali and beyond. In Island Style, the inspiration artists and designers have long found in Indonesia comes to life with a new generation of architects and designers as they discover this island paradise. Twenty-five stunning luxury homes inspired by the natural tropical settings of Indonesia are showcased in these pages, setting a new standard for tropical Asian architecture. From private beach bungalows to vacation villas to island hideaways, each of these dream houses expresses a different aspect of Indonesia's unique design heritage. Simple yet exotic, minimalist yet organic, cosmopolitan yet local and sustainable—the common denominator for all of these homes is that they are the stuff of island dreams. Be inspired by these tropical homes as the ultimate in outdoor living and sustainable architecture, fantastically decorated with modern Asian decor. Detailed descriptions of the materials used and design philosophy behind each house means you'll be able to find plenty of practical ideas for furnishing and building your own tropical island dream home anywhere in the world.
