Vikings (TV Series 2013 –) - IMDb

The Viking Age (793 – 1066 AD) was the period during the Middle Ages when Norsemen known as Vikings undertook large-scale raiding, colonizing, conquest and trading throughout Europe, and reached North America. It followed the Migration Period and the Germanic Iron Age. The Viking Age applies not only to their homeland of Scandinavia, but to any place significantly settled by Scandinavians ...

Three Keys to a Vikings Upset in Green Bay

However, the Vikings invasion began to grind to a halt as division began to form within their ranks and their armies began to fracture into two separate forces. This would be the beginning of the end of their campaign, as the Vikings suffered a

significant defeat at the hands of Wessex, the only region to hold out against the Vikings. Led by King Alfred, the armies of Wessex defeated half of the Viking forces in the Battle of Edington in 878, forever crushing their hopes of dominating all of ...

The 'Viking Age' is traditionally held to begin in June 793 when Scandinavian raiders attacked the monastery of Lindisfarne in Northumbria, and to end in September 1066, when King Harald Hardrada of Norway died leading the charge against the English line at the Battle of Stamford Bridge. This book, the most wide-ranging and comprehensive assessment of the current state of our knowledge, takes a refreshingly different view. It shows that the Viking expansion began generations

before the Lindisfarne raid, and traces Scandinavian history back centuries further to see how these people came to be who they were. The narrative ranges across the whole of the Viking diaspora, from Vinland on the eastern American seaboard to Constantinople and Uzbekistan, with contacts as far away as China. Neil Price takes us inside the Norse mind and spirit-world, and across their borders of identity and gender, to reveal startlingly different Vikings to the barbarian marauders of stereotype. He cuts through centuries of received wisdom to try to see the Vikings as they saw themselves - descendants of the first human couple, the Children of Ash and Elm.

The Vikings hold a particular place in the history of the West, both symbolically and in the significant impact they had on Northern Europe. Magnus Magnusson's indispensable study of this great period presents a rounded and fascinating picture of a people who, in modern eyes, would seem to embody striking contradictions. They were undoubtedly pillagers, raiders and terrifying warriors, but they were also great pioneers, artists and traders - a dynamic people, whose skill and daring in their exploration of the world has left an indelible impression a thousand years on.

Chronicles of the Vikings defines the social values of the Viking Age, their heroic view of life which sometimes contrasts with their more prosaic way of looking at things.

The Vikings maintain their grip on our imagination, but their image is too often distorted by myth. It is true that they pillaged, looted, and enslaved. But they also settled peacefully and traveled far from their homelands in swift and sturdy ships to explore. The Age of the Vikings tells the full story of this exciting period in history. Drawing on a wealth of written, visual, and archaeological evidence, Anders Winroth captures the innovation and pure daring of the Vikings without glossing over their destructive heritage. He not only explains the Viking attacks, but also looks at Viking endeavors in commerce, politics, discovery, and colonization, and reveals how Viking arts, literature, and religious thought evolved in ways unequalled in the rest of Europe. The Age of the Vikings sheds new light on the complex society, culture, and legacy of these legendary seafarers.

Allete Auvray isn't just heir to the English throne. Since marrying her beloved Viking fiancé, Jarl Torben, she's also the new queen of his clan, fulfilling a prophecy made by the clan's former Oracle who bespoke of a foreign bride who would lead their people and unite the Northerners. But life isn't about courtesans and ballroom finery. It's about leading a ferocious clan of Vikings into battle, and Allete can't do that unless she completely becomes one of them—a shieldmaiden of Clan Hakon. With war against her former fiancé, King Cathal, on the horizon, Allete will sacrifice everything to ensure she's up to the task of leading her clan to victory. But will she be able to do enough to earn the respect of her sisters-in-arms? Allete's sister, Dayna, is in the hands of a witch, her well-being unknown. Cathal has his armies at the ready, and Allete and Torben know they don't stand a chance on their own. To make matters worse, Brant, Torben's right-hand man and the Viking who has laid claim to Dayna's heart, is holding onto his sanity by a thread—fighting the urge to go after Dayna with or without an army behind him. With everything to lose, Allete and Torben must hold onto each other as they fight to save her sister and bring Cathal down once and for all. The Viking's Consort is the exciting finale to The Clan Hakon

Read PDF The Vikings Hold

Series by USA Today Bestseller Quinn Loftis. Two worlds collide in this epic historical fiction centered on an undeniable chemistry that smolders against the odds. Richly written and injected with moments of humor, this action-packed romantic tale will leave readers breathless.

Examines the daily lives of the Vikings.
