This book describes the evolution of the Virtual Classroom from an idea to a reality. A primary emphasis is on evaluation tools and procedures, which enables the reader to assess the extent to which the objectives of this new use of computers were attained. Extensive descriptions are provided of the software and of the collaborative learning processes that can be supported by software. Pitfalls and problems as well as advantages and successful uses of the technology are described. Finally, the book looks forward from these initial experiments to the possibilities for the use of this technology to expand educational opportunities in the 21st century.

HOW IS THIS TOEFL BOOK DIFFERENT? This TOEFL book is different because it uses an integrated vocabulary learning system called recycling. Recycling is simple. Each exercise is divided into four quizzes. Quiz 1, a multiple-choice vocabulary quiz, introduces ten new words. Next, you will do Quiz 2, which is a sentence-completion quiz based on the ten words in Quiz 1. Next, you will do Quiz 3, a spelling quiz. The speaker in the audio will say the same ten words in turn. You will then have ten seconds to spell each word by saying it and typing it. Finally, you will do Quiz 4, which is a 60-word typing test based on the ten new words you have been recycling through Quizzes 1, 2 and 3, plus words, phrases and idioms recycled from previous exercises. BONUS MATERIAL Learn essential rhetorical strategies and a test-proven way to develop opinion-based and fact-based TOEFL essays.
