The Unified National Leadership of the Uprising (UNLU) (al-Qiyada al Muwhhada) was a coalition of the Local Palestinian leadership during the First Intifada and played an important role in mobilizing grassroots support for the uprising. In 1987 The Intifada caught the Palestine Liberation Organisation (PLO) by surprise, the leadership abroad could only indirectly influence the events.

She thought, brightly, This is the worst life decision I have ever made! And she marvelled at herself for a while, at the mystery of this person who'd just done this bizarre, inexplicable thing. Margot meets Robert. They exchange numbers. They text, flirt and eventually have sex - the type of sex you attempt to forget. How could one date go so wrong? Everything that takes place in Cat Person happens to countless people every day. But Cat Person is not an everyday story. In less than a week, Kristen Roupenian's New Yorker debut became the most read and shared short story in their website's history. This is the bad date that went viral. This is the conversation we're all having. You Know You Want This, Kristen Roupenian's debut collection, will be published in February 2019.

"The book is an excellent addition to the scholarly literature on subnational movements, both past and present, offering a range of insights to policymakers across the globe."-Ayesha Jalal, author of The Struggle for Pakistan "With judicious use of empirical evidence and rich case studies, Ahsan I. Butt makes a compelling case that states' responses to secessionist movements turn to a considerable degree on their external security environments."-S. Paul Kapur, author of Jihad as Grand Strategy In Secession and Security, Ahsan I. Butt argues that states, rather than separatists, determine whether a secessionist struggle will be peaceful, violent, or genocidal. He investigates the strategies, ranging from negotiated concessions to large-scale repression, adopted by states in response to separatist movements. Variations in the external security environment, Butt argues, influenced the leaders of the Ottoman Empire to use peaceful concessions against Armenians in 1908 but escalated to genocide against the same community in 1915; caused Israel to reject a Palestinian state in the 1990s; and shaped peaceful splits in Czechoslovakia in 1993 and the Norway-Sweden union in 1905. Using more than one hundred interviews and extensive archival data, Butt focuses on two main cases-Pakistani reactions to Bengali and Baloch demands for independence in the 1970s and India's responses to secessionist movements in Kashmir, Punjab, and Assam in the 1980s and 1990s. Butt's deep historical approach to his subject will appeal to policymakers and observers interested in the last five decades of geopolitics in South Asia, the contemporary Israeli-Palestinian conflict, and ethno-national conflict, separatism, and nationalism more generally.

The discovery of a mysterious object in the U.S. Capitol building and a subsequent kidnapping lead Harvard symbologist Robert Langdon into a web of mysterious codes, secret locations, and hidden knowledge.

The important and timely reminder that no matter how far apart we are, shared love means we are always together. Wherever You'll Be follows a working mother and her child throughout their day while they are apart. Whether at work or at school, all through the day they find comfort in thinking of each other. Wherever You'll Be celebrates the connection between parent and child and lovingly shows readers that love transcends location. This reassuring book is perfect for parents and kids to read together at bedtime, and a great way to reconnect after spending the day apart. Praise for Wherever You'll Be: "The book's gentle, rhyming text tells a lyrical story about love, growth, and family . . . A sweet, simple story about family love." --Kirkus Reviews

This title documents the burgeoning eco art movement from A to Z, presenting a panorama of artistic responses to environmental concerns, from Ant Farms anti-consumer antics in the 1970s to Marina Zurkows 2007 animation that anticipates the havoc wreaked upon the planet by global warming.

The "masterfully chilling" novel that inspired the hit AMC series (Entertainment Weekly). The men on board the HMS Terror - part of the 1845 Franklin Expedition, the first steam-powered vessels ever to search for the legendary Northwest Passage - are entering a second summer in the Arctic Circle without a thaw, stranded in a nightmarish landscape of encroaching ice and darkness. Endlessly cold, they struggle to survive with poisonous rations, a dwindling coal supply, and ships buckling in the grip of crushing ice. But their real enemy is even more terrifying. There is something out there in the frigid darkness: an unseen predator stalking their ship, a monstrous terror clawing to get in. "The best and most unusual historical novel I have read in years." -Katherine A. Powers, Boston Globe

Using Propensity Scores in Quasi-Experimental Designs, by William M. Holmes, examines how propensity scores can be used to reduce bias with different kinds of quasi-experimental designs and to fix or improve broken experiments. Requiring minimal use of matrix and vector algebra, the book covers the causal assumptions of propensity score estimates and their many uses, linking these uses with analysis appropriate for different designs. Thorough coverage of bias assessment, propensity score estimation, and estimate improvement is provided, along with graphical and statistical methods for this process. Applications are included for analysis of variance and covariance, maximum likelihood and logistic regression, two-stage least squares, generalized linear regression, and general estimation equations. The examples use public data sets that have policy and programmatic relevance across a variety of disciplines.
