A video resurfaced this week of Georgia Democratic Senate candidate Raphael Warnock calling on people in the United States to “repent” for their support of President Trump and their “worship ...

~~Georgia Senate candidate Raphael Warnock: People in US ...~~

Warnock’s mentor, Dr. James Cone, fought against “satanic whiteness” and called for the “destruction of everything white” in society. Warnock also criticized white evangelical Christians and Catholics right after the 2016 presidential election for supporting Trump and charged that Trump campaigned in 2016 as a “fascist, racist, sexist, xenophobe”:

Pushing the boundaries of Asian American educational discourse, this book explores the way a group of first- and second-generation Hmong students created their identities as new Americans in response to their school experiences. Offering an opportunity to rethink the norm, this important volume pays particular attention to how race, class, and gender informed their experiences. Revealing the complex dynamics between immigration and Americanization, this engaging volume: shows how the culture of middle-class whiteness at a public high school in Wisconsin excluded and alienated Hmong American students, and how these students responded; focuses on the ways the academic and social experience at school, including peer relationships, extracurricular participation, relationships with teachers, and academic achievement influenced identity construction; makes connections between the experiences of one ethnic group of immigrant youth and the broader issues of race in the United States, showing how schools can better serve immigrant students of colour.

The second edition of *Unraveling the "Model Minority" Stereotype: Listening to Asian American Youth* extends Stacey Lee’s groundbreaking research on the educational experiences and achievement of Asian American youth. Lee provides a comprehensive update of social science research to reveal the ways in which the larger structures of race and class play out in the lives of Asian American high school students, especially regarding presumptions that the educational experiences of Koreans, Chinese, and Hmong youth are all largely the same. In her detailed and probing ethnography, Lee presents the experiences of these students in their own words, providing an authentic insider perspective on identity and interethnic relations in an often misunderstood American community. This second edition is essential reading for anyone interested in Asian American youth and their experiences in U.S. schools. Stacey J. Lee is Professor of Educational Policy Studies at the University of Wisconsin–Madison. She is the author of *Up Against Whiteness: Race, School, and Immigrant Youth*. “Stacey Lee is one of the most powerful and influential scholarly voices to challenge the ‘model minority’ stereotype. Here in its second edition, Lee’s book offers an additional paradigm to explain the barriers to educating young Asian Americans in the 21st century—xenoracism (i.e., racial discrimination against immigrant minorities) intersecting with issues of social class.” —Xue Lan Rong, University of North Carolina at Chapel Hill “Breaking important new theoretical and empirical ground, this revised edition is a must read for anyone interested in Asian American youth, race/ethnicity, and processes of transnational migration in the 21st century.” —Lois Weis, State University of New York Distinguished Professor “Clear, accessible, and significantly updated.... The book’s core lesson is as relevant today as it was when the first edition was published, presenting an urgent call to dismantle the dangerous stereotypes that continue to structure inequality in 21st century America.” —Teresa L. McCarty, Alice Wiley Snell Professor of Education Policy Studies, Arizona State University Praise for the First Edition! “Sure to stimulate further research in this area and will be of interest to teachers, teacher educators, researchers, and students alike.” —Teachers College Record “A must read for those interested in a different approach in understanding our racial experience beyond the stale and repetitious polemics that so often dominate the public debate.” —The Journal of Asian Studies “Well written and jargon-free, this book...documents genuinely candid views from Asian-American students, often laden with their own prejudices and ethnocentrism.” —MultiCultural Review

An honest explanation about how power and privilege factor into the lives of white children, at the expense of other groups, and how they can help seek justice. --THE NEW YORK TIMES \*\*A WHITE RAVEN 2019 SELECTION\*\* NAMED ONE OF SCHOOL LIBRARY JOURNAL'S BEST BOOKS OF 2018 Not My Idea: A Book About Whiteness is a picture book about racism and racial justice, inviting white children and parents to become curious about racism, accept that it's real, and cultivate justice. This book does a phenomenal job of explaining how power and privilege affect us from birth, and how we can educate ourselves...Not My Idea is an incredibly important book, one that we should all be using as a catalyst for our anti-racist education. --THE TINY ACTIVIST Quite frankly, the first book I've seen that provides an honest explanation for kids about the state of race in America today. --ELIZABETH BIRD, librarian "It's that exact mix of true-to-life humor and unflinching honesty that makes Higginbotham's book work so well..."--PUBLISHERS WEEKLY (\*Starred Review) A much-needed title that provides a strong foundation for critical discussions of white people and racism, particularly for young audiences. Recommended for all collections. --SCHOOL LIBRARY JOURNAL (\*Starred Review) A necessary children's book about whiteness, white supremacy, and resistance... Important, accessible, needed. --KIRKUS REVIEWS A timely story that addresses racism, civic responsibility, and the concept of whiteness. --FOREWORD REVIEWS For white folks who aren't sure how to talk to their kids about race, this book is the perfect beginning. --O MAGAZINE

Winner, 2019 William J. Goode Book Award, given by the Family Section of the American Sociological Association Finalist, 2019 C. Wright Mills Award, given by the Society for the Study of Social Problems Riveting stories of how affluent, white children learn about race American kids are living in a world of ongoing public debates about race, daily displays of racial injustice, and for some, an increased awareness surrounding diversity and inclusion. In this heated context, sociologist Margaret A. Hagerman zeroes in on affluent, white kids to observe how

they make sense of privilege, unequal educational opportunities, and police violence. In fascinating detail, Hagerman considers the role that they and their families play in the reproduction of racism and racial inequality in America. *White Kids*, based on two years of research involving in-depth interviews with white kids and their families, is a clear-eyed and sometimes shocking account of how white kids learn about race. In doing so, this book explores questions such as, "How do white kids learn about race when they grow up in families that do not talk openly about race or acknowledge its impact?" and "What about children growing up in families with parents who consider themselves to be 'anti-racist'?" Featuring the actual voices of young, affluent white kids and what they think about race, racism, inequality, and privilege, *White Kids* illuminates how white racial socialization is much more dynamic, complex, and varied than previously recognized. It is a process that stretches beyond white parents' explicit conversations with their white children and includes not only the choices parents make about neighborhoods, schools, peer groups, extracurricular activities, and media, but also the choices made by the kids themselves. By interviewing kids who are growing up in different racial contexts—from racially segregated to meaningfully integrated and from politically progressive to conservative—this important book documents key differences in the outcomes of white racial socialization across families. And by observing families in their everyday lives, this book explores the extent to which white families, even those with anti-racist intentions, reproduce and reinforce the forms of inequality they say they reject.

The twentieth century was a time of unprecedented migration and interaction for Asian, Latin American, and Pacific Islander cultures in the Americas and the American Pacific. Some of these ethnic groups already had historic ties, but technology, migration, and globalization during the twentieth century brought them into even closer contact. *Transnational Crossroads* explores and triangulates for the first time the interactions and contacts among these three cultural groups that were brought together by the expanding American empire from 1867 to 1950. Through a comparative framework, this volume weaves together narratives of U.S. and Spanish empire, globalization, resistance, and identity, as well as social, labor, and political movements. Contributors examine multiethnic celebrities and key figures, migratory paths, cultural productions, and social and political formations among these three groups. Engaging multiple disciplines and methodologies, these studies of Asian American, Latin American, and Pacific Islander cultural interactions explode traditional notions of ethnic studies and introduce new approaches to transnational and comparative studies of the Americas and the American Pacific.

In recent years the popular media have described Vietnamese Americans as the quintessential American immigrant success story, attributing their accomplishments to the values they learn in the traditional, stable, hierarchical confines of their family. Questioning the accuracy of such family portrayals, Nazli Kibria draws on in-depth interviews and participant observation with Vietnamese immigrants in Philadelphia to show how they construct their family lives in response to the social and economic challenges posed by migration and resettlement. To a surprising extent, the "traditional" family unit rarely exists, and its hierarchical organization has been greatly altered.

The New York Times best-selling book exploring the counterproductive reactions white people have when their assumptions about race are challenged, and how these reactions maintain racial inequality. In this "vital, necessary, and beautiful book" (Michael Eric Dyson), antiracist educator Robin DiAngelo deftly illuminates the phenomenon of white fragility and "allows us to understand racism as a practice not restricted to 'bad people'" (Claudia Rankine). Referring to the defensive moves that white people make when challenged racially, white fragility is characterized by emotions such as anger, fear, and guilt, and by behaviors including argumentation and silence. These behaviors, in turn, function to reinstate white racial equilibrium and prevent any meaningful cross-racial dialogue. In this in-depth exploration, DiAngelo examines how white fragility develops, how it protects racial inequality, and what we can do to engage more constructively.

Educators across the nation are engaged in well-meaning efforts to address diversity in schools given the current context of NCLB, Race to the Top, and the associated pressures of standardization and accountability. Through rich ethnographic accounts of teachers in two demographically different secondary schools in the same urban district, Angelina E. Castagno investigates how whiteness operates in ways that thwart (and sometimes co-opt) even the best intentions and common sense—thus resulting in educational policies and practices that reinforce the status quo and protect whiteness rather than working toward greater equity. Whereas most discussions of the education of diverse students focus on the students and families themselves, *Educated in Whiteness* highlights the structural and ideological mechanisms of whiteness. In schools, whiteness remains dominant by strengthening and justifying the status quo while simultaneously preserving a veneer of neutrality, equality, and compassion. Framed by critical race theory and whiteness studies, this book employs concepts like interest convergence, a critique of liberalism, and the possessive investment in whiteness to better understand diversity-related educational policy and practice. Although in theory most diversity-related educational policies and practices are intended to bring about greater equity, too often in practice they actually maintain, legitimate, and so perpetuate whiteness. Castagno not only sheds light on this disconnect between the promises and practices of diversity-related initiatives but also provides insight into why the disconnect persists.

'...from time to time a study comes along that truly can be called 'path breaking,' 'seminal,' 'essential,' a 'must read.' How the Irish Became White is such a study.' John Bracey, W.E.B. Du Bois Department of Afro-American Studies, University of Massachusetts, Amherst  
The Irish came to America in the eighteenth century, fleeing a homeland under foreign occupation and a caste system that regarded them as the lowest form of humanity. In the new country – a land of opportunity – they found a very different form of social hierarchy, one that was based on the color of a person's skin. Noel Ignatiev's 1995 book – the first published work of one of America's leading and most controversial historians – tells the story of how the oppressed became the oppressors; how the new Irish immigrants achieved acceptance among an initially hostile population only by proving that they could be more brutal in their oppression of African Americans than the nativists. This is the story of How the Irish Became White.

Researchers, higher education administrators, and high school and university students desire a sourcebook like *The Model Minority Stereotype: Demystifying Asian American Success*. This second edition has updated contents that will assist readers in locating research and literature on the model minority stereotype. This sourcebook is composed of an annotated bibliography on the stereotype that Asian Americans are successful. Each chapter in *The Model Minority Stereotype* is thematic and challenges the model minority stereotype. Consisting of a twelfth and updated chapter, this book continues to be the most comprehensive book written on the model minority myth to date.
