Eliot H. Dunsky, MD, is a retired physician who since his diagnosis in 2009 has been living with ALS, the complex, progressively debilitating disorder commonly known as Lou Gehrig's disease. Determined to maintain the best quality of life possible—for as long as possible—he extensively researched the condition and its management. As he immersed himself, talking to ALS patients and exploring emerging assistive technologies and aids, he realized that misunderstanding of this complicated disease was rife, preventing many from making the most of the precious years left. The result is this compilation of not only his personal experiences as his own condition advanced but also current research and links to additional specialized resources. Its aim is to help other patients learn to live with their diagnosis and navigate the day-to-day struggles associated with it. Appropriate symptom management can help fend off the devastating effects of the disease for a longer period of time. *ALS: An Orientation* offers a practical guide for patients and their families on maximizing quality of life through strategic care and, importantly, coping with the emotional toll the disease can take. A terminal diagnosis simply means savoring to the fullest the life that is still possible.

Best-selling author, designer, and web standards evangelist Jeffrey Zeldman has revisited his classic, industry-shaking guidebook. Updated in collaboration with co-author Ethan Marcotte, this third edition covers improvements and challenges in the changing environment of standards-based design. Written in the same engaging and witty style, making even the most complex information easy to digest, *Designing with Web Standards* remains your essential guide to creating sites that load faster, reach more users, and cost less to design and maintain. Substantially revised—packed with new ideas *How will HTML5, CSS3, and web fonts change your work?* Learn new strategies for selling standards Change what "IE6 support" means "Occasionally (very occasionally) you come across an author who makes you think, "This guy is smart! And he makes me feel smarter, because now I finally understand this concept." — Steve Krug, author of *Don't Make Me Think* and *Rocket Surgery Made Easy* "A web designer without a copy of *Designing with Web Standards* is like a carpenter without a level. With this third edition, Zeldman continues to be the voice of clarity; explaining the complex in plain English for the rest of us." — Dan Cederholm, author, *Bulletproof Web Design* and *Handcrafted CSS* "Jeffrey Zeldman sits somewhere between 'guru' and 'god' in this industry—and manages to fold wisdom and wit into a tale about WHAT web standards are, HOW standards-based coding works, and WHY we should care." — Kelly Goto, author, *Web ReDesign 2.0: Workflow that Works* "Some books are meant to be read. *Designing with Web Standards* is even more: intended to be highlighted, dogeared, bookmarked, shared, passed around, and evangelized, it goes beyond reading to revolution." — Liz Danzico, Chair, MFA Interaction Design, School of Visual Arts

A year after a devastating epidemic swept the world, Emily and her six-year-old son, Song, are struggling south in search of more hospitable climates. A snowstorm traps them in an abandoned gas station, where starving and desperate, they encounter Aaron, an Army medic on a mission of his own, who offers them a ride to ease the journey.

There's a real connection between craftsmanship and Web design. That's the theme running through *Handcrafted CSS: More Bulletproof Web Design*, by bestselling author Dan Cederholm, with a chapter contributed by renowned Web designer and developer Ethan Marcotte. This book explores CSS3 that works in today's browsers, and you'll be convinced that now's the time to start experimenting with it. Whether you're a Web designer, project manager, or a graphic designer wanting to learn more about the fluidity that's required when designing for the Web, you'll discover the tools to create the most flexible, reliable, and bulletproof Web designs. And you'll finally be able to persuade your clients to adopt innovative and effective techniques that make everyone's life easier while improving the end user's experience. This book's seven chapters deconstruct various aspects of a case-study Web site for the Tugboat Coffee Company, focusing on aspects that make it bulletproof and demonstrate progressive enrichment techniques over more traditional labor-intensive methods. Subjects covered in this book include: building for unanticipated future use progressively enriching designs using CSS3 properties using RGBA color for transparency with an alpha channel modular float management crafting flexible frameworks fluid layouts using grid-based design principles craftsmanship details on typography, jQuery, and shifting backgrounds

No matter how visually appealing or content-packed a Web site may be, if it's not adaptable to a variety of situations and reaching the widest possible audience, it isn't really succeeding. In *Bulletproof Web Desing*, author and Web designer extraordinaire, Dan Cederholm outlines standards-based strategies for building designs that provide flexibility, readability, and user control—key components of every successful site. Each chapter starts out with an example of an unbulletproof site one that employs a traditional HTML-based approach which Dan then deconstructs, pointing out its limitations. He then gives the site a make-over using XHTML and Cascading Style Sheets (CSS), so you can see how to replace bloated code with lean markup and CSS for fast-loading sites that are accessible to all users. Finally, he covers several popular fluid and elastic-width layout techniques and pieces together all of the page components discussed in prior chapters into a single-page template.

In their hunt for Galatea, the Organization's former number 3, Clarice and Miata enter the Holy City of Rabona, but what they encounter there is far beyond anything they could have anticipated. Also included in this volume are bonus stories of Priscilla and Isley's first meeting, and of Clare's training at the Organization. -- VIZ Media
