Wall Street Journal, Sarah Ellison won praise for covering the \$5 billion acquisition that transformed the pride of Dow Jones and the estimable but eccentric Bancroft family into the jewel of Rupert Murdoch's kingdom. Here she expands that story, using her knowledge of the paper and its people to go deep inside the landmark transaction, as no outsider has or can, and also far beyond it, into the rocky transition when Murdoch's crew tussled with old Journal hands and geared up for battle with the New York Times. With access to all the players, Ellison moves from newsrooms to estates and shows Murdoch, finally, for who he is—maneuvering, firing, undoing all that the Bancrofts had protected. Her superlative account transforms news of the deal into a timeless chronicle of American life and power.

In more than five decades as a reporter, editor and publisher, Peter Osnos has had an especially good view of momentous events and relationships with some of the most influential personalities of our time. As a young journalist for I.F. Stone's Weekly, one of the leading publications of the turbulent 1960s and in 18 years at The Washington Post, he covered the war in Vietnam and Cambodia, the Soviet Union at the height of Kremlin power, Washington D.C. as National Editor, "Swinging London" in the 60s and Thatcher's Britain in the 1980s. At Random House and the company he founded, PublicAffairs, he was responsible for books by four presidents - Carter, Clinton, Obama and Trump; celebrated Washington figures including Robert McNamara, House Speaker Tip O'Neill and Vernon Jordan, first ladies Rosalynn Carter and Nancy Reagan, the billionaire George Soros, basketball superstars

Kareem Abdul Jabbar and Magic Johnson, legendary spies, political dissidents and the writers, Molly Ivins and Peggy Noonan, among many others. In this unusually wide-ranging memoir, Osnos uses a reporter's skills to portray historic events and encounters beginning with his parents' extraordinary World War II experiences escaping Europe to India, where he was born, to the present day. He shares unique portraits of the famous people he worked with and an insider's perspective of the news and publishing businesses. As he charts the evolution of his career and recent history, he also explores the influence and impact of family, character, curiosity, luck, resilience, a well-pressed suit and some unexpected wrinkles. Also featuring a "virtual attic" of photographs.

Most people return to business school for an M.B.A. degree to

increase their marketability in a highly competitive business environment. How well they achieve their goal depends in large measure on how the business world views the schools they attended. For the first time ever, The Wall Street Journal, the world's most respected business publication, along with Harris Interactive, the organization that created the well-known Harris poll, tells you what corporate recruiters from a wide variety of fields think about the M.B.A. programs they know so intimately. Nearly two years in the making, this is the only major survey that focuses exclusively on the opinions of recruiters -- the buyers of M.B.A. talent. Twenty-seven variables for each school were evaluated, variables that drive a recruiter to hire a particular graduate, such as their company's long-term success with a school's M.B.A. graduates and the students' communication and interpersonal skills, analytical

and problem-solving abilities and leadership potential. This groundbreaking volume used the evaluations of more than sixteen hundred recruiters, appraising twenty-seven variables for more than two hundred schools in order to arrive at statistically valid ratings for fifty U.S. and international M.B.A. programs, as well as recruiters' observations on thirty-five more business schools and brief profiles on an additional seventy schools. In addition to the overall rankings, The Wall Street Journal Guide to Business Schools ranks the best public and private schools, the top schools by region, the top large and small schools, the top schools on top attributes, schools that are "hidden gems" and business schools by industry. Also evaluated are schools' academic excellence, the collegiality (and competitiveness) of each school and the most important school attributes. The corporate recruiters even list their

personal favorites...and go on the record with extremely candid observations about both the business schools and their graduates. The first guide to business schools published exclusively as an e-book, *The Wall Street Journal Guide to Business Schools* will prove to be an invaluable resource for prospective students, school faculty and administrators -- and recruiters themselves.

Why did so many intelligent people—from venture capitalists to Wall Street elite—fall for the hype? And how did WeWork go so wrong? In little more than a decade, Neumann transformed himself from a struggling baby clothes salesman into the charismatic, hard-partying CEO of a company worth \$47 billion—on paper. With his long hair and feel-good mantras, the six-foot-five Israeli transplant looked the part of a messianic truth teller. Investors swooned, and billions poured in. Neumann dined with the CEOs of JPMorgan and Goldman Sachs, entertaining a parade of power brokers desperate to get a slice of what he was selling: the country's most valuable startup, a once-in-a-lifetime opportunity and a generation-defining moment. Soon, however, WeWork was burning through cash faster than Neumann could bring it in. From his private jet, sometimes clouded with marijuana smoke, he scoured the globe for more

capital. Then, as WeWork readied a Hail Mary IPO, it all fell apart.
