Seminar paper from the year 2014 in the subject American Studies - Literature, grade: 1,7, University of Duisburg-Essen, course: A Survey of American Literature, language: English, abstract: This term paper deals with the play "A Raisin in the Sun" and how the concept of the American Dream appears in the play. It will be discussed if working hard is enough to reach one's American Dream. The play is written by Lorraine Hansberry and published in 1958. It takes place in the south of Chicago where the Younger family lives and consists of five people from three different generations. Head of the family is Lena, who is mostly called Mama, right after her we got her son Walter Lee, who will be presented in the main part of this term paper. Besides, there is Walter's wife Ruth and their son Travis. The last member of the Youngers is Walter's sister Beneatha. Mama embodies the first generation and is quite traditional. Ruth, Walter and "Bennie" represent the second generation, whereas Travis is the only child in the third generation. The family has been living in America in the fifth generation and has got African roots. It can be said though that Walter, Bennie, Ruth and Travis are less traditional than Mama and identify with the American way of life. The whole family shares a small apartment in a ghetto and living together is difficult as everybody has got his or her own desire. Dream and point of view about certain topics. Especially Walter Lee expects a lot from life and the reader sympathizes with him. Misunderstood by his family Walter wants to live a better life and represents the concept of the American Dream of a person wanting to "rise from rags to riches". Walter dreams of an office job and really dislikes being a chauffeur for a white person. He wants his son to go to the best schools and to get the best education as possible. Furthermore, he also wants to spoil his wife and get himself a nice car. But why does he fail? Why does nobody in his family support his idea of raising an own business, namely opening a liquor store? Beneatha is not even surprised about Walter's failure. These questions shall be answered in the main part of this paper. Moreover, I quickly want to present the concept of the American Dream, especially focusing on the Dream of "Upward Mobility".

Lottie secretly knows there is a shark in the pool waiting to eat her, until her new walrus friend, Walter, helps her to conquer her fear.

A classic memoir that's gripping, funny, and ultimately unforgettable from the bestselling former National Ambassador of Books for Young People. A strong choice for summer reading—an engaging and powerful autobiographical exploration of growing up a so-called "bad boy" in Harlem in the 1940s. As a boy, Myers was quick-tempered and physically strong, always ready for a fight. He also read voraciously—he would check out books from the library and carry them home, hidden in brown paper bags in order to avoid other boys' teasing. He aspired to be a writer (and he eventually succeeded). But as his hope for a successful future diminished, the values he had been taught at home, in school, and in his community seemed worthless, and he turned to the streets and to his books for comfort. Don't miss this memoir by New York Times bestselling author Walter Dean Myers, one of the most important voices of our time.

NEW YORK TIMES BESTSELLER • A leading political scientist examines the dramatic rise in violent extremism around the globe and sounds the alarm on the increasing likelihood of a second civil war in the United States "Like those who spoke up clearly about the dangers of global warming decades ago, Walter delivers a grave message that we ignore at our peril."—David Remnick, The New Yorker Political violence rips apart several towns in southwest Texas. A far-right militia plots to kidnap the governor of Michigan and try her for treason. An armed mob of Trump supporters and conspiracy theorists storms the U.S. Capitol. Are these isolated incidents? Or is this the start of something bigger? Barbara F. Walter has spent her career studying civil conflict in places like Iraq, Ukraine, and Sri Lanka, but now she has become increasingly worried about her own country. Perhaps surprisingly, both autocracies and healthy democracies are largely immune from civil war; it's the countries in the middle ground that are most vulnerable. And this is where more and more countries, including the United States, are finding themselves today. Over the last two decades, the number of active civil wars around the world has almost doubled. Walter reveals the warning signs—where wars tend to start, who initiates them, what triggers them—and why some countries tip over into conflict while others remain stable. Drawing on the latest international research and lessons from over twenty countries, Walter identifies the crucial risk factors, from democratic backsliding to factionalization and the politics of resentment. A civil war today won't look like America in the 1860s, Russia in the 1920s, or Spain in the 1930s. It will begin with sporadic acts of violence and terror, accelerated by social media. It will sneak up on us and leave us wondering how we could have been so blind. In this urgent and insightful book, Walter redefines civil war for a new age, providing the framework we need to confront the danger we now face—and the knowledge to stop it before it's too late. Praise for How Civil Wars Start "It turns out that there is a discipline that you might call 'civilwarology'—the study of the factors that lead to civil war. . . . Barbara F. Walter became a civilwarologist nearly a quarter of a century ago and her entry is evidently well-thumbed in the Rolodexes of the CIA and the U.S. State Department. In other words, she knows what she's talking about—which makes this book rather scary."—The Times (U.K.)
