This seven-week participant's guide helps readers dig deeper and strengthen their faith as they learn how ideas from the five fatal worldviews can infect their faith. Readers will understand more about Secularism, Marxism, Islam, New Spirituality, and Postmodernism, and how their faith can be affected by the ideas these worldviews spread. Designed to be used alongside the book and DVD, this interactive guide gives readers tools to establish a strong, biblical worldview.

Chronicles the long struggle between East and West, looking at the competing worldviews, psychologies, religions, social institutions, and culture and covering such topics as the crusades, the Ottoman Empire, and the modern-day struggles in Iraq.

As a nine-year-old Tehrani schoolgirl during the Iranian Revolution, Nazila Fathi watched her country change before her eyes. The revolutionaries—most of them poor, uneducated, and radicalized—seized jobs, housing, and positions of power, transforming Iranian society practically overnight. But this socioeconomic revolution had an unintended effect. As Fathi shows, the forces unleashed in 1979 inadvertently created a robust Iranian middle class, one that today hungers for more personal freedoms and a renewed relationship with the outside world. And unless an international confrontation allows Iranian leaders to justify an internal crackdown, this internal pressure for reform will soon set the country on a more stable track. In *The Lonely War*, Fathi describes Iran's awakening alongside her

own, revealing how moderates are retaking the country—and how foreign powers can aid their progress.

Abraham Lincoln is the most beloved of all U.S. presidents. He freed the slaves, gave the world some of its most beautiful phrases, and redefined the meaning of America. He did all of this with wisdom, compassion, and wit. Yet, throughout his life, Lincoln fought with God. In his early years in Illinois, he rejected even the existence of God and became the village atheist. In time, this changed but still he wrestled with the truth of the Bible, preachers, doctrines, the will of God, the providence of God, and then, finally, God's purposes in the Civil War. Still, on the day he was shot, Lincoln said he longed to go to Jerusalem to walk in the Savior's steps. What had happened? What was the journey that took Abraham Lincoln from outspoken atheist to a man who yearned to walk in the footsteps of Christ? In this thrilling journey through a largely unknown part of American history, New York Times best-selling author Stephen Mansfield tells the richly textured story of Abraham Lincoln's spiritual life and draws from it a meaning sure to inspire Americans today.

Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

Shaping a Christian Worldview presents a collection of essays that address the key issues facing the future of Christian higher education. With contributions from key players in the field, this book addresses the critical issues for Christian institutions of various traditions as the new century begins to leave its indelible mark on education.

Thomas Sowell's classic analysis of the opposing visions behind today's ethical and ideological disputes Controversies in politics arise from many sources, but the conflicts that endure for generations or centuries show a remarkably consistent pattern. This revised edition of a classic analyzes the centuries-long debates about the nature of reason, justice, equality, and power. It distinguishes between those with the "constrained" vision, which sees human nature as enduring and self-centered, and the "unconstrained" vision, in which human nature is malleable and perfectible. A Conflict of Visions offers a compelling case that these opposing visions are behind the ethical and ideological disputes of yesterday and today.

When Patrick Buchanan took the stage at the Republican National Convention in 1992 and proclaimed, "There is a religious war going on for the soul of our country," his audience knew what he was talking about: the culture wars, which had raged throughout the previous decade and would continue until the century's end, pitting conservative and religious Americans against their liberal, secular fellow citizens. It was an era marked by polarization and posturing fueled by deep-

rooted anger and insecurity. Buchanan's fiery speech marked a high point in the culture wars, but as Andrew Hartman shows in this richly analytical history, their roots lay farther back, in the tumult of the 1960s—and their significance is much greater than generally assumed. Far more than a mere sideshow or shouting match, the culture wars, Hartman argues, were the very public face of America's struggle over the unprecedented social changes of the period, as the cluster of social norms that had long governed American life began to give way to a new openness to different ideas, identities, and articulations of what it meant to be an American. The hot-button issues like abortion, affirmative action, art, censorship, feminism, and homosexuality that dominated politics in the period were symptoms of the larger struggle, as conservative Americans slowly began to acknowledge—if initially through rejection—many fundamental transformations of American life. As an ever-more partisan but also an ever-more diverse and accepting America continues to find its way in a changing world, *A War for the Soul of America* reminds us of how we got here, and what all the shouting has really been about.

Provides exceptional insights and clarity to patterns of order in living things, including the promise of healing and new birth in Christ.
